ONE PROMISE WAS KEPT

Speaker Montgomery Calls House Together on Time.

FUSION FACTIONS SQUABBLE

Sixty Five Minutes Devoted to Janitors ' Rules Fail to Secure Three-fifths Vote of the House.

Special to the Gazette

Denver Jan 10—In accordance with his promise yesterday Speaker Montgomery called the house to order ex[illegible] [illegible] the house on [illegible] of sickness

The words of the chaplain invoking God's blessing upon the house had hardly died away when the two fusion [illegible] of the silliest squabbles of the session. It all came [illegible] janitors of the cloak room being sick and the necessity of [illegible] others. The majority of fusionists had two men to recommend. The fusion minority did not feel that the two men should be sworn in unless all members were allowed to make [illegible] and the places were filled [illegible] which followed brought out some very [illegible] remarks. Briscoe of Douglas took occasion twice to refer to the majority [illegible]. The speaker called attention to the fact that there was no fusion [illegible] this house when the word fusion meant [illegible]. After one hour and five minutes had been lost the whole matter was laid on the table for 24 hours and the two cloak rooms [illegible]. The laying of the matter on the table was the first victory the fusion [illegible] this session. The Republicans voted with the fusion minority.

A memorial to the United States congress was introduced by Mr Martin petitioning congress to take the proper steps that would lead to the election of United States senators by the direct vote of the people. Invitations were then read from some of the different ministers of the city inviting the members to attend their respective churches.

Under introduction of bills the following were handed to the reading clerk.

Bills introduced in the house are as follows

By Cannon To prevent the desecration of the flag of the state or of the United States

By [illegible] [illegible] arbitration Also one providing for [illegible]

By Smith Concerning damages sustained by employes

By Sprigg An act to cede to the United States jurisdiction of the state of Colorado over a site for a public building within the corporate limits of the city of Colorado Springs and to release the same and other property of the United States from taxation

Short Senate Session

The senate [illegible] of its committees that it only held a short session this morning and after the introduction of a few bills adjourned until ten o'clock tomorrow

The principal bills introduced are [illegible]

While [illegible] amendment [illegible] laws providing for a board of equalization composed of the governor auditor treasurer and secretary of state. Also for the county commissioners to act in their respective counties.

[illegible] members of the general assembly instead of pay per diem

Moore providing for the [illegible] of the office of railroad commissioner

The committees of both houses are getting down to work and it is expected that some bills will soon be reported back for the second reading.

The Senatorial Situation

The contest for the United States senatorship took another turn about midnight last night when ex-Governor Thomas addressed letters to each of the other contestants asking them to [illegible] joint caucus next Monday night at eight p m, the choice of the caucus to be binding. Mr Patterson immediately [illegible] stating that he was perfectly willing for a caucus to be held but [illegible] two o'clock. Mr Thomas wished that [illegible] Mr Patterson preferred a roll call of the membership. Mr Thomas preferred that the fusionists settle upon some [illegible] before the assembly while Mr Patterson believes it would be [illegible] to nominate before the assembly Tuesday whether any agreement had been reached or not. At noon today Mr Thomas sent a letter to Mr Patterson. The last letter merely answers Mr Patterson's objections to certain parts of the first letter of Mr Thomas and adds nothing whatever to the correspondence.

The committee on rules reported the rules to govern the house. [illegible] moved to amend the rules as reported. The amendment gave the speaker the privilege of referring bills pertaining to the Denver city charter to the Denver City Charter committee or the constitutional committee as he deemed best. Just before the vote the speaker explained that under the rules of the Twelfth assembly all bills pertaining to the Denver charter were referred to the charter committee where they stayed until too late [illegible] that he trusted the machine would not be oiled in that manner during this session. The amendment to the rules was adopted. The vote to adopt the rules of the house [illegible] to 3 in favor of adopting the rules. After another 30 minutes discussion as to whether the vote must have a three fifths majority or not the chair decided that such a majority must prevail [illegible] and that the motion was lost. The vote killed the committee on constitutional amendments and during the discussion as to where such laws should be referred the house adjourned.

REPUBLICANS PITCHED OUT

Pueblo Representatives Suffer From Arbitrary Exercise of the Power of Fusion Majority.

Special to the Gazette

Denver Jan 10—The only business of importance transacted [illegible] was the settling of the Pueblo contest in the house. It was settled [illegible] Republican members and of seating three Democratic members. [illegible] a goodly number [illegible] present to witness the proceedings. The committee having the matter in [illegible] minority report [illegible] complexion of the committee [illegible] majority report [illegible] ing of the [illegible] [illegible] was brought before the house [illegible] form [illegible] majority report [illegible]

Dickerson [illegible] Twombley of Yuma [illegible] spoke against the [illegible] Hammond [illegible] chairman of the committee [illegible] [illegible] [illegible] [illegible] other three [illegible] Republicans [illegible] United States [illegible] Martin of Pueblo spoke [illegible] [illegible] [illegible] [illegible] voters in Pueblo [illegible] [illegible] Democrats [illegible] hundred thousand innocent people [illegible] the Philippines and that that member [illegible] object to submit [illegible] the majority [illegible] after having used such terrible means to bring the Filipinos into subjection [illegible] also said that in adopting the majority report the number [illegible] for Colorado's worst enemy [illegible] would be [illegible] Mr Dicker[son] [illegible] He [illegible] that Hammond's remarks were only the outcome of [illegible] desire to make a grand stand gallery play and not to establish [illegible] order of the session. Mr Dickerson [illegible] by saying that [illegible] [illegible] [illegible] adjourned [illegible]

MRS HEARTZ BILLS

A Measure to Provide for Direct Legislation Introduced in the Colorado Assembly

[illegible]

[illegible] a majority of those voting

[illegible]

PATRIOTISM OF COLORADO

Washington Jan 10—Considerable [illegible] was made by the senate today [illegible] organization bill but the final vote upon the measure seems to be as far off as ever. Today's [illegible] characterized [illegible] some of which were of a decidedly personal nature. An appeal was presented by Mr Teller of Colorado from more than 2,000 persons in [illegible] urging the United States government to cease its operations against the Filipinos. The appeal is [illegible] usual in form that Mr Hawley of Connecticut made a vigorous objection to its publication as a senate document [illegible] of the government and an attack upon our soldiers

Consideration was concluded of the committee amendments of the army reorganization bill and the senate took up the amendments proposed by individual senators. The amendments providing for the appointment of General James H Wilson Fitzhugh Lee and General Shafter to be major generals of the regular army and retired [illegible] of Mr Pettigrew a bitter debate. The amendments prevailed, however, despite the opposition

In discussing those amendments at length Mr Teller said [illegible] that this bill was drawn in the army office. It was drawn with the idea of taking care of the pets of the service

The pending bill he said was neither just nor reasonable

Mr Proctor said the pending bill certainly had not been drawn with the idea of rewarding favorites as suggested by Mr Teller. He felt that the bill went as far in providing for the retirement of officers as it should go reasonable

Pending action on the amendment proposed by Mr Teller to increase the retired the whole went over till tomorrow

An amendment offered by Mr. Penrose authorizing the members of societies and corps and regimental organizations of Spanish war veterans to use and wear upon occasions the distinctive badges of such organizations was adopted

Mr Penrose also offered an amendment [illegible] against the desecration of the United States flag but objection was made and it went over

Mr Daniel (Va) offered an amendment authorizing the president to select from the list of brigadier generals of [illegible] volunteers two officers without regard to age for the purpose of appointing them majors generals of the [illegible] intended to provide for [illegible] of General J H Wilson and General Fitzhugh Lee

Mr Sewell offered an amendment to [illegible] office not above the rank of brigadier general to be appointed as a major general and retired

In answer to an inquiry of Mr Teller Mr Sewell replied that his amendment was intended to apply to the benefit of the man who conquered the Spanish nation—General Shafter

Mr Pettigrew declared there was nothing in the history of the conflict at Santiago which warranted the proposed action by the senate

Pettigrew's Cutting Talk

It is conferred distinction for honor [illegible] Mr Pettigrew declared and for service not rendered. I am opposed to it. If I read the history of that engagement correctly the credit for our victory certainly does not lie with General Shafter

Mr Pettigrew then [illegible] desk and had read a chapter of Senator Lodge's history of the Spanish-American war giving an account of the battle of Santiago

After the clerk had read for some time Mr Pettigrew [illegible] up the reading making as he proceeded sarcastic remarks upon General Shafter's [illegible]

[illegible]

The Amendment Carried

[illegible]

THE BOERS ADVANCE

London Jan 11 Five thousand [illegible] says the Cape Town [illegible] of the Daily Mail are now making their way into the heart of Cape Colony. The supposition is that they have captured several small garrisons on the way

PLAN NOT TO BE PRESSED

Negotiations Will Not be Removed From Peking.

UNANIMITY AMONG POWERS

Was Not Likely and No Other Condition Would Be Acceptable.

Washington Jan 10—The proposition submitted by the president to transfer the negotiations of indemnity and commercial treaties to some other place than Peking was designed to facilitate the conclusion of the Chinese [illegible] ing those requiring consideration from those already determined. As some of the powers do not look with favor upon this separation [illegible] others hesitate to decide the question the president has deemed [illegible] to direct the diplomatic representatives abroad to cease to press [illegible] proposition [illegible] directed the diplomatic representatives [illegible] the United States to so inform the governments to which the proposition was advanced. At the same time desiring above all else to avoid delay in the progress of the negotiations the president has directed Mr Conger to urge forward their completion at Peking. The other governments also have been urgently requested to avoid all unnecessary delay in completing [illegible] Chinese question.

The foregoing gives in authoritative form the important action determined upon today

As specially stated, the action was brought about because some of the powers did not look with favor upon the proposal while others held back in giving their decision. Under these circumstances it was evident to the [illegible] accept the proposal [illegible] could be no effective agreement for removing these two subjects of negotiation from Peking. It is understood that the action just taken does [illegible] favor toward those powers which [illegible] back in giving their decision. Both the president and Secretary Hay acted on the suggestion of Mr Conger in the hope that this might offer a means of breaking the apparent deadlock at Peking and open the way to a final adjustment. Now that this phase of the negotiation is closed the [illegible] feel that it would be ungracious to disclose just what powers did not look with favor upon the removal plan and they decline to confirm the current speculation to the effect that much of [illegible]. The instructions to Mr Conger to urge forward the completion of the negotiations at Peking were forwarded late [illegible] from during the day

PROCESS OF ATTRITION

London Times Says Boers Are Gradually Weakening But News From Front is Not Satisfactory.

London Jan 11—The situation in South Africa grows worse rather than better. Lord Kitchener's dispatches are more laconic than those of Lord Roberts and little else of importance is allowed to come through

The Times in an editorial today finds comfort in the thought that the pro[illegible] inevitable result"

In other quarters however there is less satisfaction with the condition of affairs which has practically necessitated the fortification of Cape Town

No steps have been taken to comply with Lord Kitchener's demands for reinforcements

Lord Coleridge [illegible] at a political meeting—says

I loathe and detest this war and the policy which brought it about the mode in which it is conducted and the undignified excitement over the defeat of a handful of peasants defending their country at the hands of ten times their number of trained soldiers backed by the wealth of England

This morning's dispatches report that a small party of Boers carried off cattle [illegible] hundred Boers under Commandant Kritzinger are 15 miles from Richmond in the direction of Murraysburg

Rumors are spreading at Porterville that the rebels have joined the Boers in the Calvina district

The military commissioner of police at Johannesburg has warned the public to beware of dangerous dynamite [illegible] mines as the authorities cannot hold themselves responsible for injuries resulting therefrom

INSURANCE SWINDLE

Colonial Life Company of Jersey City Causes Arrest of Four Persons Outline of the Case.

New York Jan 10 [illegible] they were the victims of "graveyard" insurance swindlers officers of the Colonial Life Insurance Company of America located in Jersey City today caused the arrest of Thomas Martin [illegible] William Necker an undertaker in Union Hill and Thomas J Kelly a pugilist whose right name is said to be Thomas Walron and who until recently was an agent for the company. D Richard Jaher a West Hoboken physician and formerly [illegible] examiner in Union Hill for the company went to police headquarters but after making a statement was not placed under arrest. Secretary and Manager Ernest Hoppenheimer of the insurance company said he did not think Dr Jaher had been guilty of criminal intent but he had been careless in signing papers presented by Kelly

Martin Kelly and Necker were released on $1,000 bail each

An indictment had been found against the four men upon the charge that they had conspired to secure insurance upon the life of Robert Brenner a boy of 17 who was the brother of Martin's wife. The insurance was secured in August last when Brenner was an inmate of Bellevue hospital. Martin was the beneficiary. Brenner's application had been secured by Kelly [illegible] [illegible] by Dr Jaher and his body had been buried by Necker the undertaker. It was charged that Brenner was dying with consumption when the policy was granted

Manager Hoppenheimer said that Kelly while an agent of the company had [illegible] company had paid money to Necker and Martin as beneficiaries

Mr Hoppenheimer said that three cases had been found in which Kelly and the others had defrauded the company. It was believed there were other [illegible]. The company had noticed a high death rate among the persons insured by Kelly and refused to insure [illegible]. The policy was made out by Kelly [illegible] $464. When Brenner died in October last soon after the policy was secured the company started an investigation of Agent Kelly's work and soon afterward dismissed him and Dr Jaher

Mr Hoppenheimer also said that one of the men insured by Kelly had been in Bellevue hospital shortly before the insurance was placed and died soon afterward. One case was so flagrant that the company heard of it and Necker having reason to fear trouble accepted a return of the premium. In this case the policy was for $1,000. In the other suspected cases the insurance was for smaller amounts. The company canceled several policies written by Kelly on persons [illegible]

COUNT DE CASTELLANE'S TROUBLE WITH WERTHEIMER

New York Jan 10—The suit brought by Anton J Dittmar New York lawyer as assignee of Asher Wertheimer London bric a brac dealer to enjoin the trustees of the estate of the late Jay Gould from paying over to the Countess de Castellane any portion of the income of her share of the estate was called in the supreme court [illegible] continue pending the trial of the action a temporary injunction issued by Justice Fitzgerald preventing the Goulds from sending any money to their sister

By an agreement between counsel the Goulds have been permitted to send the Countess $19,500 a month for the last two months

Mr Untermeyer counsel for Dittmar presented an affidavit today from Wertheimer giving a detailed account of all the articles sold by him to the Castellanes and alleging that they were [illegible]. Annexed to his affidavits Mr Wertheimer has placed much of the correspondence that passed between himself and Count de Castellane. In the earlier letters the count [illegible] cent of good ordered by him and agrees to [illegible] affidavit. Interest says the count on all credit purchases is to be reckoned at four per cent per annum

In several letters the count pleads the Spanish American war as an excuse for not meeting his obligations to Mr Wertheimer. He says that his income is delayed by the war. In one letter the count assures Mr Wertheimer that his income will shortly increase and the recipient knows that as soon as the count has a few sous they will [illegible]

[illegible] [illegible] saying that he [illegible] certain [illegible] for the benefit of his [illegible] Wertheimer [illegible]

Colonel James for the Goulds [illegible] opposed the motion to continue the injunction [illegible]

We hold that this court is without jurisdiction over the person of the Countess de Castellane and is without power to determine what part of her income is necessary for the support of herself and children. This is an attempt to collect a debt that has not been established. By the answer which the defendants interpose the honesty of that [illegible] even though the court [illegible] jurisdiction the will of the late Mr Gould would prevent the maintenance or payment of the claim for in a codicil to his will Mr Gould expressly provided that no beneficiary under the will should have power to encumber the share to which he or she was entitled

Colonel James then quoted a number of authorities to show that it was lawful and [illegible] person to so place his estate in the hands of the trustees and to so provide that his heirs should not be allowed to contract debts in anticipation of their income

Colonel James asked the court to dismiss the injunction [illegible] Wertheimer have his redress in the French court to which both of the defendants are subject

Decision was reserved

HEPBURN PLAYS HIS SPECIALTY

Washington Jan. 10—The general debate on the river and harbor bill continued in the house until 4 o'clock, when the death of Representative Clarke of New Hampshire was announced and the house adjourned out of respect to his memory

Hepburn Finds Trouble

The features of the debate today were the speeches of Mr Cushman of Washington and Mr Hepburn of Iowa. The [illegible] of river and harbor bills for years, and [illegible] the bill all along the line in his usual vigorous fashion. Mr Cushman's speech was unique in many particulars. He was in favor of river and harbor appropriations and his complaint was due to the fact that members of the committee according to his ideas had located the bulk of appropriations in their own states and had given scant attention to the needs of other states. He illustrated his remarks with a series of carefully prepared charts. He criticized several of the individual members of the committee in breezy style and became engaged in half a dozen very spirited encounters before he concluded

Speaking of the Mississippi river he declared that although $40,000,000 had been spent on that river no substantial increase in the navigation of the river had resulted. He defied any one unless he were interested in river and harbor improvements or an engineer of the United States army to produce proof to the contrary

Cushman's Protest.

Mr Cushman (Wash) followed Mr Hepburn with another assault upon the bill. He illustrated his remarks with an enormous chart which he had brought into the hall. Members crowded about to examine the exhibit made. On a table on a side figures sufficiently large to be read from the [illegible] was a list of 1[illegible] states which had members upon the river and harbor committee giving the sums appropriated and authorized in the bill. Direct appropriations amount to [illegible] appropriations amount to [illegible]. He said the 1[illegible] states with members upon the committee got all the appropriations with the exception of $8,349,000 in appropriations and authorizations left to the remaining states and territories [illegible] of which got no appropriations whatever. Mr Cushman said he was in favor of the river and harbor improvements but a bill for that purpose should be for the benefit of the whole country and not for the benefit of the members [illegible]

New York Explains

Mr Alexander of New York a member of the committee made a general defense of the committee pointing how fallacious it was to charge to a state money expended for the improvement of the general commerce facilities of the country. He also pointed out how natural it was that the committee should be made up of members whose sections were interested in river and harbor interests

After some further remarks by Mr Mann (Ill) and Mr Otey (Va), the committee rose

Mr [illegible] announced the death of Representative [illegible] New Hampshire and presented the [illegible] resolutions of respect. These were unanimously adopted and a committee [illegible] to attend the funeral

Then at 4 0 [illegible] as a further mark of respect the house adjourned

REPUBLICAN WOMEN ACTIVE

Letters are Pouring in to Headquarters From all Parts of the State—Pernicious Activity is Rebuked.

Special to the Gazette

Denver Jan 10—Letters are pouring in by the dozens from all sections of the state to the secretary of the Republican Club of Colorado. Each one [illegible] movement and pledges the support of [illegible] ples announced in the address to the people. One man in the southern part of the state says that 90 per cent of the Republicans of that section are for the new movement. Another writes that any attempt by federal officeholders to interfere will result in petitions to the president to remove such pernicious officeholders.

The women are taking hold in dead earnest

Fifteen letters have already been received from representative women of the state pledging their support and [illegible]. No person cares how much the federal officeholders may strengthen their organization but every person unites in favor of a strong organization of the rank and file of the party.

The committee on permanent organization will meet Monday and another meeting of the club will be called for an early date

In the meantime all letters should be sent to H[illegible] Tarbell, temporary secretary, Mining Exchange building, Denver Colorado.

SALE OF THE PORTLAND

Examination of the Company's Workings by W. S. Bradley Believed to Mean This.

Special to the Gazette

Cripple Creek Jan [illegible] W. S. Bradley, one of the most well known and wealthiest mining experts in the world left tonight for California. Mr Bradley has been conducting since Nov 5 a thorough examination of the great Portland workings and if, as it is stated by the Portland company, he was paid for his services, he is one of the highest priced men ever employed for this kind of work.

Mr Bradley is supposed to be the United States expert for the Rothschilds of London. He is at the head of several extensive enterprises in this country such as the Alaska-Treadwell of Alaska the Mariposa of California and the Frisco Consolidated of Idaho. Joseph MacDonald, John McKenzie and Francis T Freeland well known in this section, are under his supervision. Mr Bradley has made a thorough examination of the Portland workings using 10 or 15 men each day for this purpose and it is thought here that at least some sale of the Portland company's holdings is in contemplation or negotiation.

COLORADO CADET CALLED

Wm. P. Ennis Received Some Advice From Col. Clayton in the Booz Investigation.

[illegible] evening's session of the Booz investigation committee Cadet William P. Ennis of Colorado, a cadet at large who stands fourteenth in the present first class [illegible] Congressman Wanger of Pennsylvania examined the witness who knew little about former Cadet Booz. He was not present at the Booz-Kellar fight although he was class president of the third class during the summer encampment of '98. He said there were six fights in that year. In reply to Congressman Smith the witness said that most of the fights at the post took place on Saturday or Sunday afternoons

The witness had rather a bad quarter of an hour with Mr Driggs who questioned him in regard to the former Cadets Albert and Huetzeler. Ennis acknowledged that he said it would be a good thing to give these men a sufficient number of demerits to force them out of the academy. Both of them are now out of the academy Huetzeler on account of demerits and Albert for deficiency in studies

Gets Some Good Advice

Ennis made no secret of [illegible] that he felt that the men should be got rid of and reiterated this sentiment distinctly on the stand in reply to Congressmen Driggs Wanger and Clayton. He was in a position as corporal in the company [illegible] on every occasion but never unfairly or un[illegible] man Smith again made similar statements [illegible] to the surprise of those who heard him. General Dick asked Colonel Clayton if he had any more questions to ask and the colonel said

I have nothing more to ask but I would advise this young man to revise his ideas if he intends to go into the army

Chairman Dick then took the witness [illegible] him to describe all the forms of exercising. The general called off all the well-known forms of exercises from a list and Ennis explained them. He added a new one, which is called [illegible] to Newburg. This exercise consists of a man lying on his stomach while he goes through the motions of a swimmer. These maneuvers last until the hazers think he has gone far enough. The witness in detail told the committee the process by which a cadet qualified in "Sammy" and in "prunes" as well as other commodities in the mess hall.

Had Heard of Bad Results.

Questioned by Mr. Driggs, Ennis said that he knew Cadet Breth. He did not [illegible] the Altoona cadet had fainted from hazing. He did not know of Cadet Breth having fainted but he had heard of Cadet MacArthur having convulsions after being rigorously exercised

Cadet Frank Kellar of Missouri was then called. Chairman Dick turned the witness over to Congressman Smith for examination. Mr Smith asked Kellar if he was the [illegible] fought Cadet Booz. After the witness had replied in the affirmative Mr. Smith asked him to tell in his own way of the fight and he did not deviate in any way from the description which he gave of the contest before the military court of in[illegible] end of the fight Kellar said

The fight lasted about a round and [illegible] Booz a blow over the stomach. It was not a hard blow and did not knock him down. Booz went to the ground but had sufficient wind left to say 'The wind is knocked out of me'

Kellar said he had one other fight with Cadet Williams who knocked him out in the second round. The committee adjourned until 9 o'clock tomorrow morning

THE NEWS OF CRIPPLE CREEK

Death of Mrs. McLeod Finally Results From Wounds.

CLYDE GRAY BROUGHT BACK

Important Suits Filed—Demands for Money and Services Against the Marie Mining Company

Cripple Creek Bureau
Colorado Springs Gazette

Cripple Creek, Jan 10—After lingering between life and death for four days Mrs Clarence McLeod who shot herself with suicidal intent on Sunday morning, died at her home 148 First street at 8 o clock this morning. Death was due to the self inflicted bullet wound—the ball entering her body just below the left collar bone and passing entirely through the body, lodging under the skin in the back ... questioned from the fact that the deceased was but 21 years of age and had been married but one year. Domestic troubles led to the suicide. Deceased formerly lived in Leadville and was the daughter of Attorney Thomas of that city. The funeral will probably be held Sunday from the residence, the interment being at Mt Pisgah cemetery.

Sheriff Stewart arrived in the city at 5.30 o clock this evening from Pueblo having in charge Clyde Gray wanted for the crime committed at Divide a few weeks ago. The victim was Annie Rust a school girl of that place. Gray denies the charge against him but does not deny that he made the attempt. He says he is 17 years of age and he does not look any older.

The Marie Mining company owning a lease upon the main workings of the Pharmacist Consolidated Mining company's property on Bull hill is beset with lawsuits demanding money for services and material furnished. Three suits were filed against the company in the district court today in which a total of $7,481.90 and interest is asked. The Teller County Mining Supply company of Victor filed an attachment suit to recover $7 ... and interest from the Marie company, for material furnished between May 21, 1900 and Dec 1 1900. Larry Maroney files an attachment suit to recover $126 28 and interest for material furnished between July ... 1900 and Sept 20 1900. W H Leffingwell a mining engineer filed suit to recover $160.67 and interest for services rendered between Sept 18 1900 and Nov ... 1900.

William I Milliken commenced suit in the district court today against W C McKelvey and the Pennsylvania Washington and Cripple Creek Mining and Mill company. The plaintiff alleges that in September 1899 he secured a judgment for $718 95 against the defendant company. W C McKelvey also had a judgment against the company. Milliken and McKelvey entered into an agreement to levy upon the property of the company and obtain the amount of their judgments. The property of the company consisting of ... Kitty B, Two Gems and the Little Dora lodes were levied upon, and $4 311 9. was obtained from the sale. McKelvey purchased the property at the sheriff's sale. The plaintiff alleges that he did not receive the amount of his judgment. He sues for an interest in ... and the amount the property sold for.

The adverse suit of the Spaulding Grouse Mining and Milling company vs the Wheel of Fortune Consolidated Gold Mining company was filed in the district court today. The plaintiff company seeks to recover that part of the West View lode in conflict with the Bobb and the Big Four Hundred lode claims. Damages in the sum of $1 ... and $25 expended in adverse proceedings are also asked.

Thomas Chellew has obtained a temporary writ of injunction restraining the Golden Crescent Water and Light company from diverting the waters of Oil creek near Gillett. In the suit filed several days ago ... alleged prior rights to the water in Oil creek to be used for the purpose of operating his reduction plant and developing his mining lands.

Al Ma... an officer on the Cripple Creek police force was ... to the position of night captain of Police made vacant by the resignation of Night Captain Hedrick. The appointment came as a complete surprise to Mr Mason.

Theodore Thomas age 50 years died at the hospital this morning of pneumonia. His relatives at St. Clair, Pa have been notified of his death.

The weather today was very cold and tonight the thermometer registers around zero. There is good sleighing and many people are taking advantage of it.

Harold Kennedy a Canadian secured his first papers of naturalization in the county court today.

Certificates of full paid up capital stock of the Austin Clapp Investment company and the Dorothy Gold Mining company were filed with the county ... the former ... being capitalized for $10 000 and the latter for $1 00 000.

The La Bella Mill Water and Power company today filed notice in the recorder's office that it had released the Legal Tender mine from the lien against it for $490 87 for compressed air furnished.

The pursuit of pleasure is often as dangerous to ... the pursuit of the bubble reputation even in the cannon's mouth. Late hours, the breathing of a vitiated atmosphere, rich foods and irregular rest must result in a depleted vitality. There is a feeling of languor, the appetite fails, sleep does not refresh, life loses its interest and nervousness or hysteria may make life miserable.

The preservation of the healthful tone of the body depends chiefly on keeping the blood pure and the stomach and other organs of digestion and nutrition in a condition of health. When any of the above mentioned symptoms appear the timely use of Dr Pierce's Golden Medical Discovery will restore the body to a healthy equipoise. It purifies the blood, nourishes the nerves, and restores the deranged stomach and its allied organs to a condition of sound health.

There is no alcohol, whisky or other stimulant contained in "Golden Medical Discovery."

"I was troubled with very frequent headaches often accompanied by severe vomiting," writes Miss Mary Bell Summerton of San Diego Duval Co Texas. "Bowels were irregular and my ... I could eat almost nothing for twenty four hours at a time. I was entirely unfit for work and my whole system run down. I was advised to try Dr Pierce's Golden Medical Discovery and did so with such satisfactory results that before finishing the third bottle I felt perfectly able to undertake the duties attending public school life. I most heartily advise those suffering with indigestion and its attendant evils to give this great medicine a fair trial."

Dr Pierce's Pleasant Pellets cleanse and regulate the stomach, liver and bowels. They produce permanent benefit and do not re-act on the system. One is a gentle laxative.

NEWS NOTES FROM PUEBLO

Skews and Madden Plead Guilty to Petty Larceny

CHARGED WITH BURGLARY

Cattle Sold by Sheriff are Declared Property of an Intervenor Smith-Sare Wedding

Pueblo Bureau
Colorado Springs Gazette.

Pueblo, Jan 10—Harry Skews and John Madden were arraigned in the district court ... on a charge of burglary. They withdrew their former plea of not guilty and pleaded guilty to petty larceny. After a severe lecture Judge Dixon suspended sentence. They robbed the Missouri Pacific freight ... in the employ of the company.

The case of Alex Woods vs Mrs ... Nelson, J W Nelson intervenor was decided this afternoon after a two days trial. As representative of a local undertaking firm Woods brought suit against Mrs Nelson for a claim ... for the burial of Mrs Nelson's husband and son in 1898. The firm levied on some cattle which they supposed belonged to Mrs Nelson and sold them at a sheriff's sale. J W Nelson son of the defendant appeared in court and laid claim to the cattle claiming that they were his personal property and could not be seized for his mother's debts. The case was being tried on the question of whether the cattle belonged to Mrs Nelson or to her son and the jury decided that they were the property of the intervenor.

Ernest Fred Smith and Miss Bessie Sare two well known young Pueblo ... were united in marriage tonight. The groom is an employe of the ... Telephone company and a prominent local musician while his bride has long been connected with the Pueblo Journal and Press.

Tubercular Diseases.

Vitiate the Blood, Impair the System and Produce Nervo-Vital Weakness — Dr. Ellison Successfully Treats Consumption, Asthma, Bronchitis, Catarrh and Chronic Diseases of Men, Women and Children—Office 24 North Tejon Street.

By persistent effort and close application to scientific investigation, Dr. Ellison has learned how to cure chronic diseases. He desires an opportunity to convince those who suffer from the diseases he treats as a specialty that obstinate diseases can be cured by the use of his special treatment. The doctor's discoveries have won a shining name in Colorado Springs by the power for good they have exerted over insidious diseases such as consumption, asthma, bronchitis, catarrh, and the chronic diseases which men, women and children are subject to. The motto at this office is: "The greatest good to the greatest number of sick people for the least amount of expense consistent with good services." The mission is to heal the sick. Over 10 years have been spent in perfecting this successful method, so that those who suffer can be assured that they will secure the best possible services.—Dr. Ellison's sulphur treatment for lung and throat diseases can be taken at the patient's home. Those who can not call should write, 24 North Tejon street (over Craigue's grocery store). Office hours, week days, mornings 9 to 12; afternoons, 2 to 5; evenings, 7 to 8; SUNDAYS, 2 to 3.

DR. ELLISON'S SULPHUR COUGH CURE.

This remedy has long been used by the doctor in his practice for the cough incident to consumption, asthma, bronchitis, croup, diphtheria, coughs, colds, hoarseness, loss of voice, sore throat, whooping cough, influenza, etc. It will not dry up a cough or cold, but aids nature in throwing off the poisonous mucus produced from diseased lungs or a cold, heals the membrane and restores nature to a healthy condition. It is prompt in its action and absolutely harmless. There is no morphine, opium, ipecac or injurious drug in its composition. In croup, whooping cough and diphtheria it liquifies the tough, tenacious mucus and aids its expulsion from the system. Price 50 cents a bottle at the office, 24 North Tejon street (over Craigue's grocery store.)

Land Question in the Philippines.

Filipinos nourish a sense of wrong without being able to specify particulars. Legal questions do not interest them. They put no trust in legal documents, and fear the courts. They want justice more than law, and perhaps vengeance more than either. They want church properties registered the same as other property. They want wealth given to the church by them to remain in the Philippines and to be used for their benefit. And they want to know how it is used, and to have some voice in its management. The friars are Spanish, and are leaving for Spain. Will they take church wealth with them? Filipinos do not know whether they will or not. I do not pretend to express any opinion further than this: that church administration, by its secrecy, if by nothing more, has opened the door for complaints. If the church in the Philippines did not sow the wind it was the most powerful agent present when the wind was sown, and it cannot now complain if it is injured by the whirlwind.

Tenants in Luzon make two complaints—(1) that the land they till is not the rightful property of the reputed landlord to whom they pay rent; and (2) that improvements made by them on land tilled by them have simply led to advances in rentals. The land question in the Philippines— or, at any rate, in Luzon—has a basis similar to the same question in Ireland, and the questions which caused the anti-rent war in the Hudson valley in 1842-44. Publicity of all transactions; frankness in dealing with the poor and ignorant; equality of all persons before the law,—priest, peasant, and landed proprietor alike,—these will be able to bring about better things. There is little use in bringing charges for past misdeeds on the part of the friars, if there have been such. Forget the past, make Filipinos know the honest purpose of the present and the future will furnish the remedy. (From "Friars, Filipinos, and Land," by James B. Rodgers, in the American Monthly Review of Reviews for January.

A WOMAN'S BACK.

The Aches and Pains will Disappear if the Advice of This Colorado Springs Citizen Is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidneys' fault.

Backache is really kidney ache.

That's why Doan's Kidney Pills cure it.

Many Colorado Springs women know this.

Read what one has to say about it: Mrs. S. Hodge of 238 N. Walnut street says: "If the first box of Doan's Kidney Pills procured at Jones & Wellington's drug store had not relieved rheumatic pain and backache I could not have been induced to continue the treatment, neither would I recommend through our Colorado Springs newspapers the means I employed to bring me relief. Doan's Kidney Pills act as represented."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

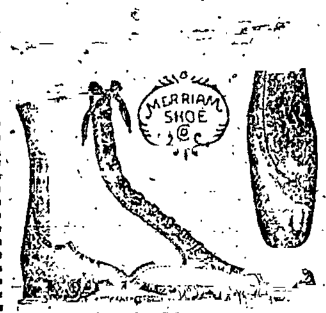

Remember the name Doan's—and take no substitute.

HAIR SOFT AS SILK.

New Scientific Treatment Kills Dandruff Germs and Makes Hair Soft.

It is an accepted fact, a proven fact, that dandruff is a germ disease, and it is also a demonstrated fact that Newbro's Herpicide kills the dandruff germ. Without dandruff falling hair will stop and thin hair will thicken. Herpicide not only kills the dandruff germ, but it also makes hair as soft as silk. It is the most delightful hair dressing made. It cleanses the scalp from dandruff and keeps it clean and healthy. Itching and irritation are instantly relieved, and permanently cured. At all druggists. There's nothing "just as good." Take no substitute. Ask for "Herpicide."

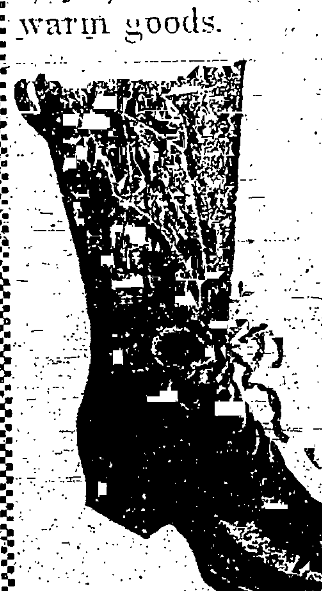

GREAT CLEAN UP SALE of Seasonable Footwear

At Herring's Shoe Store!

Commencing Friday Morning, January 11th, we will place on sale a great variety of Men's, Ladies', Boys', and Children's Shoes and Rubber Goods. Owing to the mild winter we find we have too many warm goods.

It is our motto to never carry over goods from one season to the next, and the way to dispose of them is to put prices on them that you cannot help but carry them away with you, and that is the way you will find them marked.

There are a great many broken lines in all departments that we will close out cheaper than they can be made at the factory. It means a loss to us, but a gain to you. First to come will have the best selections, so you had better come early. Below we will give you a few prices.

Lamb's Wool Soles 25c and 35c quality, during this sale, 10c

The above goods are absolutely the greatest bargains ever offered in footwear in Colorado Springs.

HERRING'S SHOE STORE

HERRING & COX, Proprietors.

UNIQUE EVENING BLOUSE

The ever increasing variety of the separate fancy waist proves it to be long lived and strong in fashion. In this unique and Frenchy model we have some delightfully novel ideas. The yoke and the tiny little vest which extends down the front are of white lace mounted upon white satin. Strappings of black taffeta cut out in unique designs and stitched in lines of white silk are appliqued upon the surface of the lace. The sleeves and blouse of the corsage are of white panne dotted in small black dots. Strappings of the black taffeta stitched in white decorate the cuffs and upper sleeves, the panne is joined to the yoke beneath one of these strips of stitched taffeta and the front of the blouse is decorated with the same. Design by Simpson, Crawford and Simpson.

Spain and the Spanish-speaking World.

There is some reason to think that to Spain the new century will bring many compensations for the losses of territory and prestige it has suffered in the century that is now at an end. Of all the geographical changes that the political map of the world has undergone since the early years of the nineteenth century, the shrinkage in the dominions of Spain is the most remarkable. At the opening of the century the whole of South America belonged to Spain, except Brazil, which belonged to Portugal, and the Guiana settlements, which were then mere trading points on the northern coast. All of Central America and Mexico belonged to Spain; and in what is now the United States, Spain owned Florida and a very large part of all the territory west of the Mississippi, including California and the Pacific coast as far north as Puget sound. For a generation previous to the year 1800, even the vast Louisiana territory belonged to Spain. In addition to these continental colonies, Spain owned Cuba and other West Indian islands, and, off the coast of Asia, the great Philippine group. What is left to the Spaniards is, after all, by far their most valuable possession, namely, Spain itself. There is a point of view from which it may be said that Spain has really lost nothing at all. The people of Spain, the common citizens, have clearly gained rather than lost. A few merchants of Barcelona, it is true, have been deprived of profitable markets which were theirs by virtue of exclusive tariff arrangements, while a certain number of army officers and civil officials have lost the opportunity to go out to the colonies to fatten on the gains of corrupt administration. But to the common people of Spain, Cuba and the Philippines had come to mean nothing at all except an empty point of pride and a terrible military tax, both of money and of the blood of their sons. The mere sundering of the bond of political sovereignty does not make the Spanish-speaking world any smaller. On the other hand, Spain's final withdrawal from political participation in the affairs of the New World, by virtue of the loss of Cuba, is likely enough to be the beginning of a new and better relationship between the whole of Spanish America and the European mother-country. (From "The Progress of the World," in the American Monthly Review of Reviews for January.

COLORADO REAPPORTIONMENT.

SENATOR TAYLOR has introduced a bill into the assembly for the reapportionment of this state into three congressional districts, in accordance with the bill which will undoubtedly be passed by the present congress.

The terms of Senator Taylor's measure comply with the usual congressional requirements. The proposed districts are approximately equal in population, contiguous in territory and they are also compact in shape, which is a new requirement added to the Burleigh bill and intended to prevent "shoestring" districts.

The several districts of Senator Taylor's bill may be roughly designated as the eastern, the south central and southwestern, and the north central and northwestern.

The first district includes Denver and fourteen smaller counties of the plains, extending from the Wyoming to the Oklahoma boundary. The following table shows the population according to the census of 1900 and the vote for McKinley and for Bryan at the recent election:

County.	Pop.	McKinley.	Bryan.
Arapahoe	153,017	25,469	53,754
Morgan	3,268	723	538
Logan	3,292	594	583
Washington	1,241	312	191
Yuma	1,729	316	392
Philips	1,583	347	275
Sedgwick	971	256	163
Elbert	3,101	626	640
Lincoln	926	275	124
Kit Carson	1,580	384	253
Cheyenne	501	128	97
Kiowa	701	151	144
Bent	3,049	569	546
Prowers	3,766	760	633
Baca	759	157	134
Total	179,484	31,056	38,473
Fusion plurality			7,417

Of the counties in this district, three, Arapahoe, Yuma and Elbert gave a plurality for the fusion ticket, the other 12 counties went Republican. The future political complexion of this district would depend entirely upon the city of Denver, for while the district outside of Denver is now Republican it is not probable that the outside counties could be relied on to overcome a majority in Arapahoe.

The counties of the second district with their population and votes at the last election are as follows:

County.	Pop.	McKinley.	Bryan.
El Paso	31,602	7,755	6,230
Pueblo	34,448	6,028	5,877
Otero	11,522	1,913	2,266
Las Animas	21,842	3,832	4,204
Huerfano	8,395	2,272	1,922
Custer	2,937	510	870
Fremont	15,636	2,572	2,001
Saguache	3,853	731	1,085
Costilla	4,632	884	453
Conejos	8,794	1,854	912
Rio Grande	4,080	752	1,118
Mineral	1,913	208	709
Archuleta	2,117	578	391
La Plata	7,016	900	1,844
Hinsdale	1,609	230	595
San Juan	2,342	362	1,135
Ouray	4,731	610	1,656
Montrose	4,535	220	732
San Miguel	5,379	717	1,604
Dolores	1,134	66	412
Montezuma	3,058	658	1,058
Total	181,575	33,651	37,267
Fusion plurality			3,616

Of the 21 counties in this district 15 gave their votes for Bryan last year, while six of them, El Paso, Pueblo, Huerfano, Costilla, Conejos and Archuleta voted for McKinley. Under present conditions the district appears to be safely Democratic, though the Republicans would have a chance of success, and there would at least be no such overwhelming odds as in the present second Colorado district, where the plurality for Bell over Hogg was more than 15,000.

The third district of the Taylor bill also contains 21 counties, their population and votes being as follows:

County.	Pop.	McKinley.	Bryan.
Teller	29,002	4,738	9,659
Park	2,998	579	940
Jefferson	9,306	1,807	2,158
Douglas	3,120	642	650
Clear Creek	7,082	781	2,309
Gilpin	6,690	1,211	1,498
Boulder	21,544	3,719	5,117
Weld	16,808	2,786	3,386
Larimer	12,168	2,515	2,456
Grand	741	171	152
Routt	3,661	575	525
Rio Blanco	1,690	276	291
Garfield	5,835	828	1,704
Eagle	3,008	412	943
Summit	2,744	294	967
Lake	18,054	2,385	4,755
Pitkin	7,020	458	2,305
Chaffee	7,085	1,033	1,899
Gunnison	5,331	945	1,559
Mesa	9,267	1,317	1,968
Delta	5,487	822	1,352
Total	178,641	28,360	46,993
Fusion plurality			18,633

Every one of these counties gave a fusion plurality in 1900, and it would require a political revolution of large proportions to make the district anything but safely Democratic. If Senator Taylor should at any time in the near future be fortunate enough to secure the Democratic nomination for congress from the third district, he could feel assured of his election.

In general it may be said of Senator Taylor's plan that it is a fair and reasonable one, and probably as good as any other. A possible objection is that it divides the western slope between two districts, while that section has interests that are peculiarly its own. But while the number of people in each district should be 179,900 as nearly as possible, the total population of the [illegible] western counties together with the five of the San Luis valley only aggregates 91,142, and if to these are added the six intermountain counties of Lake, Chaffee, Park, Fremont, Custer and Teller, the aggregate is then 169,864, or 10,009 short of the number required. It is evident therefore that the western slope cannot be placed in a separate district nor can the mountain counties be separated from those of the plains.

Senator Taylor's bill divides the state into districts of nearly equal population and as nearly equal area as is possible. The districts are both contiguous and compact and the division is probably as fair and unobjectionable from a political standpoint as is possible under present conditions. If the assembly passes the Taylor bill that will be one important matter satisfactorily disposed of.

SIDE LIGHTS ON THE ROOSEVELT TRIP.

IF President McKinley should die of the grippe and Roosevelt should be eaten by a White River mountain lion, what would happen? The presidential electors, who assembled in December, having given their ballots for the Republican candidates it is to be presumed that, there being no vice-president now in office, the secretary of state would be acting president until a special presidential election should be held within 34 days of the first Wednesday in next December. Such a case has not arisen in the history of our government, nor has it at any time been necessary to call a special election for president. In 1872 however the unsuccessful candidate for president died after the election and previous to the meeting of the electors, and the minority votes were divided among four candidates, besides three votes from Georgia which were actually cast for the dead candidate and rejected by congress on that account. This incident drew particular attention to the curious feature of our political system which requires no pledge of the electors and nominally leaves them perfectly free to vote for whomever they please, while at the same time custom has drawn an inviolable rule that they shall endorse the candidates of their party.

It is not to be supposed, however, that Theodore Roosevelt, now in the cocoon stage between the governorship of New York and the vice-presidency, will encounter anything worse in Routt county than a hard cold, and it is certainly to be hoped that President McKinley's recovery from the grippe will be prompt and complete. We tremble, however, to think of the perils to which Roosevelt will be exposed as soon as he gets out of touch with the railroad, not from the wild beasts of the northwest, but from inventive correspondents of the yellow news fakirs. We shall undoubtedly have a regular bulletin of daily events. First and least of all the distinguished hunter will be lost in a mountain snow storm, and the war department will have sent for a regiment of cavalry from the Philippines to dig him out of the drifts. Next we shall be told that Roosevelt is entrenched on a knoll surrounded by thousands of ravenous wolves, and that the entire militia force of Colorado, Utah and Wyoming has been ordered to his assistance. And finally will come the capture of the entire party by the bandits of Robber's Roost, which is too conveniently located to escape the attention of the lynx-eyed correspondents who will watch every movement of the hunting party from the back fourth story windows of 127th street. And by the time Big George and Black Jack and the Yellow Kid get through with him, the hunting trip will be over, inauguration day approaching and the American public will have found something else to talk about.

THE ARMY OPINION OF HAZING.

IT HAS BEEN a somewhat difficult matter to secure the honest opinion of army officers in regard to hazing at West Point, for the reason that witnesses before the investigation committees, whether still students at the academy or graduated to the active service, have been reluctant to discuss their own experiences with absolute frankness. The man who has been hazed is apt to speak of it as a trivial experience, and it was characteristic testimony which was given by one witness who declared that he knew of one student who had feigned fainting and that one was himself.

It is satisfactory, however, to know that the military papers take a view of the matter that is creditable to their good sense and their humanity. The New York Army and Navy Journal says:

"It should always be remembered that we are training young men at the national academies for command, and the foundation of character fitted to exercise authority is respect for authority and respect for the rights and the freedom of others. Hazing is an exercise of lynch law, which, however worthy its objects or beneficial its results, can not be admitted in any form or to any extent in a military institution controlled by law. Whatever the remedy for it may be, it must be applied without fear or favor. The national academies, and especially the military academy, are always rowing against so strong a tide of public sentiment that it is necessary to sacrifice remorselessly any of the crew who can not be depended upon to obey orders."

The Army and Navy Register (Washington) is even more outspoken. It declares:

"Cadets who would be guilty of imposing on a defenseless young man and perpetrating all sorts of heathenish and diabolical tricks, such as are described as having been visited upon Booz, are not fit for the United States army. It is a mistaken idea, which some officers may entertain and which evidently many cadets honor in observance, that it is gentlemanly and brave to nab upon a cadet and put him through all sorts of curious maneuvers and finish off the carnival with something which shall cause personal discomfort, if not physical distress. In the case of Booz the attack is said to have been sufficiently severe to have caused a fatal malady. There is no written or unwritten law of cadetship which would make such an action creditable to the participants. If an investigation shall disclose that the cowardly practice of hazing is attaining any such dangerous proportions at West Point, we have a right to be ashamed of the young men who are engaged in such miserable outlawry. If there is no truth in the charges which have been brought by the Booz family, it is proper that the cadets and the institution at West Point be fully exonerated from the smirch of the outrage. It is conceivable that the young man has made charges which can not be proven and which had no justification in fact. It would have been wise, however, to have made a full inquiry into the matter without delay and without the demand from congress."

This is the sensible view and the manly view, and we are glad to believe that it is the military view. The officers of our army have a reputation for true manliness, courage, humanity and self-restraint not surpassed anywhere in the world, and it is impossible to believe that brutal and unreasonable hazing is any consistent or necessary part of the training that is largely responsible for what they are.

IS IT ANOTHER ARNOLD FAKE?

(San Francisco Chronicle.)

The alleged discovery of diamonds in an ant hill at Capitan, N. M., should be taken with a strong mental reservation. Doubtless every Californian will do so. The discovery may be genuine, but there are many Californians who have not yet forgotten the Arnold diamond fraud in the middle seventies, through which several prominent San Franciscans of that time were badly victimized and which was suspected of having a direct influence in hastening one of the biggest bank failures this state ever witnessed.

Arnold and his confederates had carefully "planted" the ground in an obscure and almost inaccessible section of Nevada, in a formation like that which is said to exist in New Mexico, favorable to the presumed existence of the precious stones. One noted expert of the period was actually deceived by the "plant" and returned from the scene with a glowing report of the richness of the deposit. This produced a scramble among wealthy speculators for the diamond field stock. How much money the conspirators secured was never made known, but it was very large. It would have been much larger had it not been for the timely exposure made by Clarence King, who voluntarily rushed across the continent to make a personal examination of the ground. His prompt exposure of the fraud created a panic [illegible] picked the bubble.

Of course the Capitan diamond deposit may not be a fake. Gems of great value have been found in many places on the continent and at various points in this state, and many geologists are inclined to believe that a profitable deposit may some day be discovered here or elsewhere. But common prudence suggests great caution in the acceptance of any reported discovery and the securement of abundant reliable indorsement of its correctness before any money is invested in it.

Gazette Gayeties

TO PAT CROWE GREETING.

Oh Crowe, Pat Crowe
Wherefore
Art thou, who dost keep?
For years thou
[illegible]
Pr[illegible]
Thou hast
[illegible]
Men seek thee with an
Diligence
As a watch for thee with
Vigilance
Erstwhile thou wert
Not known
Among
Swell folk, but now
Thy name is
Home
[illegible] and every town
Well knows thy
Undesired
Renown.
Say, Patsy boy, how
Does it feel
To hear and there in hiding
Steal, and know
That wherever you may
Tread
There is a price upon
Your head?
Is it
Worth what you got
To be
Forever hunted
Mercilessly
And do you
Never, perchance, regret
That you
Swiped Mr. Cudahy's pet?
Although,
Pat Crowe
We fain would see you
In a cage
And at you day by day
We rage,
In spite of this
We must
Confess
That by thy skill and
[illegible]
[illegible]
Well-known speed in flight
Which keeps thee ever
Out of sight,
And by thy
Name
Which now is heard
Across the land—thou
Art a bird!

"De dancers ain't know," remarked Uncl' Ephe, "whedder de orchestra am in tune er not."

The Wife—John, what is this kidnaping I see mentioned in the papers? The Brute: Er—it's a new medicine to put children to sleep! Say, isn't dinner nearly ready?

OPEN PARLIAMENT.

To the Editor of the Gazette:

In one of your editorials of yesterday's Gazette, Thursday, Jan. 10, headed "Recent Gifts to Colleges," you certainly made one great mistake in classifying colleges. Writing about the recent gifts of Dr. D. K. Pearsons to western colleges you mention Bethany college at Lindsborg, Kan., as "a small Swedish institution." Let me first say that whilst Bethany college is mainly supported by the Swedish Lutheran churches of Kansas, Texas and Colorado (the Kansas conference), the institution is fully American, and ranks with any of the American colleges of the west. In its lecture rooms and rooms of instruction are found some of the foremost educators of the state of Kansas. When two years ago the Republican party in Kansas was looking for a man to place at the head of "Public Instruction" of its state, the man was found in the halls of Bethany college, Lindsborg, Kan. It was Prof. Frank Nelson, Ph. B., who last fall was reelected with the highest vote of the state ticket. Bethany college has buildings valued at: Main building, $70,000; ladies' hall, $8,000; auditorium, $5,000; art hall, $3,000; other buildings, $2,000. It has musical instruments and a library valued at $50,000. Its running expenses are $35,000. This year's enrollment of students numbers 760. It has 10 departments with 30 professors, and although it is just about to celebrate its year of majority its alumni number 600. Its diplomas are not only acknowledged at Yale, Harvard and Chicago, but also at the Universities of Sweden and Germany. Its president, Rev. C. A. Swensson has his Ph. D. from one of the leading universities of Europe and his D. D. from one of the large institutions of this country.

[illegible] to one of outstanding institutions of the west.

Very respectfully,
George E. Youngdahl.
Colorado Springs, Colo.

The Struggle of the Cities.

The census of 1900 shows that only two classes of American cities have made especial progress, those on the inland lakes and those possessing great and diversified manufacturing enterprises. The river cities are growing more slowly; the coast cities south of Norfolk are making little progress, but between that point and Portland, Maine, they are attracting large populations. The railroad cities south of Norfolk are making little progress, but between that point and Portland, Maine they are attracting large populations. The railroad cities, especially those of comparatively high altitudes, are also making considerable progress. The United States has more cities of one million population and upward than any other nation in the world. It has three cities of over one million, New York, Chicago and Philadelphia. Its growth in wealth is equally rapid.—"Success" for January.

The Humor of Defeat.

John Kendrick Bangs, the witty author and editor, tells, in "Success" for January, how he narrowly escaped becoming a second Chauncey M. Depew:—

"That was the greatest blessing that ever happened to me. That defeat was my greatest success. In 1894 I was a candidate for the mayoralty of my native town—Yonkers. I was born there, you know, in May, 1862. Some of my fellow townsmen thought that I could be of some use to them as mayor. I was highly elated. I could see a great future, congress—perchance the presidency! But I could not go around and lure voters. I stayed at home and made no speeches, and on election day my opponent won by a small majority. In later years, when I saw how I would have been forced to abandon my chosen profession for politics, when I learned that the mayoralty would have taken every moment of my time, I was glad that I had been defeated. I might have developed into a second Chauncey M. Depew if I'd been elected."

Why Admiral Dewey's Son Is Not a Sailor.

If a boy has no inclination to become a sailor, I should certainly not [illegible] ... My son [illegible] the navy. The reason is that he [illegible] no inclination that way and I refused to spoil a good business man to make him a poor sailor.—Admiral Dewey in "Success" for January.

Woman Dragged Under Street Car

An accident occurred last evening about 6:30 which may result fatally to the woman who was hurt.

Elizabeth Campbell, a nurse girl in the employ of Mr. Francis Pastorius, who resides at No. 415 North Cascade avenue, was returning from the Kinnikinnick dancing school where she had gone after Mr. Pastorius' little boy, when she was struck by a south bound street car and dragged half a block before the car was stopped.

Miss Campbell came down Tejon street to Boulder street with the little boy close behind her. A car was coming up the street and she crossed just behind this car, intending to go west on that street to Cascade ... car coming south and it was upon her before she ... She was struck by the front of the car and knocked down in the middle of the track. Her clothing caught in the fender and she was dragged a half block before the car was brought to a stand. The car had to be backed before the girl could be rescued from underneath it. She was carried into the house at No. 320 North Tejon and ... was summoned. It was found then that the wheels had not passed over her but that she was severely bruised about the head and hands. When the doctor lifted her up she spit blood and it is thought that she is badly injured internally. Dr. ... Dennis attended her and ... be ascertained last night. The boy had a very narrow escape, but was saved from ... a short distance behind the nurse.

Deplorable Accident to a Young Boy

One of the most peculiar and lamentable accidents that has occurred in the city for a long time was the misfortune which befell the little 8-year-old son of J. C. Cheezum yesterday. The family reside on Pike's Peak avenue in the vicinity of the Santa Fe tracks.

The little lad, while at home from school for the noon intermission, wandered into a room which is rented to a stranger by his parents. While in the room he found a bottle of whisky and proceeded to drink it. The exact quantity that he imbibed is not known, but it is believed to have been fully half a pint.

The little boy and an elder brother ... the house ... school where the smaller one is a pupil in the First grade, but as the two were entering the school house the liquor proved too much for the little fellow. He had been unsteady ever since leaving his home but the ... were more and more apparent ... he reached the top of the steps he fell headlong. His brother, attempting to save the little fellow from falling fell on top of him and the smaller one received a severe concussion by striking his head on the steps.

Dr. McKinnie was summoned and found the child in a very serious condition. The effects of the liquor were serious in themselves and the concussion resulting from the fall is of such a character that it will take probably until this evening to determine what will be the outcome. ... is considerable doubt as to the recovery of the child.

Championship Shoot Occurs To-Day

Promptly at 2 o'clock this afternoon at the Colorado Springs Gun club's range at Broadmoor, will open the competition of most of the crack shot gun shooters of Colorado for the Spalding medal, now held by Mr. A. B. Daniels of Denver.

The challenger in the competition is John W. Garrett of this city, holder of the state championship trophy, who has twice during the last month ... bring ing the Spalding medal to Colorado Springs by one bird. It is now held by Mr. Daniels, having been won by him from the former holder in a shoot at Denver December 28.

In today's competition for the medal there will be crack shooters entered from Denver, Pueblo, Florence and Colorado Springs. Just who will accompany Mr. Daniels is not known, but he will have three or four shots from the Denver club. Mr. A. L. Bennett of Pueblo will be a competitor, as also will Mr. E. C. Deibert, and possibly one or two others from Florence. ... best shots in the state, will be on the ground and may enter the competition. The Colorado Springs Gun club will be represented by J. W. Garrett and W. W. Shemwell. G. D. B. Bonbright, who, the other day, showed the New Yorkers how to shoot twenty straight, would be a contestant if he were in the city, but his absence is regretted by local supporters of the game. Local interests could not be in better hands, however, than those of Messrs. Shemwell and Garrett and, if the result is not a victory to Colorado Springs, local enthusiasts will not claim that it would have been different had Mr. Bonbright been present.

Shooting has developed in Colorado to a remarkable state of perfection; most of the shooters of really exceptional ability in the west being Colorado men. Notwithstanding Colorado Springs has never until today had a state competition on her home grounds, Messrs. Garrett and A. J. Lawton, Mr. Bonbright, and recently Mr. Shemwell, have ranked in the highest class among Colorado shooters and have given Colorado Springs a name second to that of no city in the west.

The Gun club hopes that the attendance this afternoon will be large, in order that the visitors may know that Colorado Springs is interested in the success of her men. There is no charge for admission to the grounds. The competition will begin promptly at 2 o'clock and will take between sixty and ninety minutes, being concluded while the sun is still high and the temperature pleasant. There will be a good fire inside the club house for any who wish to avail themselves of it and fear becoming chilled in the open air.

The club house is less than a block from the car track where cars bound for the canons turn into Lake avenue, which is the avenue leading to Broadmoor casino.

No sport that can be witnessed is more entertaining than this for persons who have not seen anything of the kind. Both ladies and gentlemen are invited.

Governor Roosevelt Was in the City

Governor Roosevelt, the vice president-elect, arrived yesterday morning and remained only a few hours. He came in on the Rock Island at 7:30 accompanied by one man, a gentleman who has hunted with him a great deal, and managed his ranch in Montana. Mr. Stewart and other friends met them at the depot and they drove to Mr. Stewart's residence for breakfast.

Later in the morning Governor Roosevelt drove around the city with Lieutenant Horace Devereaux and Joseph Stevens, two members of his old command. He made some slight purchases and went about the city quite unnoticed and undisturbed. To newspaper men he had nothing to say of a public nature.

At 11 o'clock the party assembled at the Midland depot and departed for Rifle. This morning they ... to Meeker where they will be joined by Goff, the guide.

The governor was well equipped for the trip and is anticipating a fine hunt and a rest away from the worries of public life. With such an experience and the leisure that the occupant of the vice presidential chair is supposed to have, it will be not surprising if another volume on outdoor life is the result.

Governor Roosevelt promised his friends that he would stop here on his return and stay a day or two. The party expects to be away three weeks at least.

CITY HALL NOTES

There were three cases up for trial before Judge Shideler yesterday morning.

William C. Porter was fined $10 and costs for disturbing the peace and was committed upon the non-payment of his fine.

Frank Ross and G. W. McCulloch were fined $2 and costs each for drunkenness and were committed to jail.

Officer Shelby is on duty again after a severe attack of the grippe.

A pipe broke on East Kiowa street yesterday but the break was quickly repaired by the water superintendent.

The four-inch main on Cucharras street near the Santa Fe railroad, broke yesterday morning and it took a good sized force of men to fix it. The railroad company has been doing some excavating there recently and the pipe was exposed.

Such little pills as DeWitt's Little Early Risers are very easily taken, and they are wonderfully effective in cleansing the liver and bowels. Hefley, Arcularius Drug Co., E. E. Smith, 117 South Tejon street.

Some Prominent Railroad Passenger Men

Colorado Springs entertained a party of distinguished railroad passenger men yesterday. In the party were W. B. Jerome, general western passenger agent, and Charles C. Merrill, southwestern passenger agent of the New York Central road; L. D. Heusner, General western passenger agent of the Michigan Central, and J. E. Jaque, traveling passenger agent of the West Shore road.

The gentlemen were here for the day en route to California. What the exact meaning of this move is the gentlemen do not explain, but it is supposed to be of importance at this time.

While in the city yesterday the gentlemen were handsomely entertained by the railroad fellows of the city and state. Irwin Tears of the New York Central came down from Denver with them and turned them over to W. W. Wood. They regretted to find Colonel Ellison under the weather as he is an old friend of most of them. Mr. C. C. Merrill of the New York Central is a frequent visitor here in years past. He is one of the most genial passenger men in the country and one of the best. Beginning as an operator in a small country town in Illinois he has, by his own work, put himself in line for promotion on the greatest road in the United States, at least the greatest in wealth, management and equipment. He is about 40 years of age and under ordinary circumstances should have a long and brilliant career in the railroad business in the years to come. Said Mr. Merrill yesterday:

"I am glad to get back here and get a breath of this fine air. I always like to come to Colorado Springs, not only because it is a nice place but they treat me nicely. I am always astonished with the growth of the place, and especially since Cripple Creek came on. I am just like a lot of other fellows, too, about Cripple Creek. I should have bought some ground there the first time I was in."

"Can you say anything of your present trip?" was asked.

"No. I think there is nothing of importance to the public. You know we traveling passenger men have to make them to keep in touch with the railroad men who handle the local business, to overlook the conditions of business in the various sections. We are having a pleasant time and we anticipate a pleasant time until our return."

Automobile Went to the Right Person

Mrs. J. B. Reynolds of Sierra Madre street just north of the Denver and Rio Grande depot, got the locomobile yesterday afternoon. Mrs. Reynolds is not wealthy and looks like a hard working woman, so everybody ... when it was announced that she had won. It hardly ever happens that way.

The drawing ... agency store and Manager Skinner had a good committee on hand from the merchants. The scheme was that the various merchants paid $1 a thousand for the tickets, and with every 50 cents worth of goods ... The result was that the locomobile was bought and all the expenses were paid. About 500,000 tickets were heaped in a corner of the room. A big crowd assembled until the doors had to be locked. A committee composed of W. Gessford, S. H. Moss and J. C. Stuart supervised the drawing. A young boy was blindfolded and after the tickets had been well mixed with a pitchfork, the little fellow drew out a hundred, one at a time. The last one of the hundred was that of Mrs. Reynolds. The last ten names were called off as follows: ... Colorado City; 92— ... avenue; J. N. Davis, 219 North Corona; 94—H. W. Wyman, Worcester, Mass.; 95— ... Master, 5 South Tejon street; 97—E. H. Eyre, 523 North Cascade avenue; 98—Mary Patterick, 752 East Moreno avenue; 99—H. R. Hayden, 1434 Wood avenue; 100—Mrs. J. B. Reynolds, North Sierra Madre street.

The lady was present and amid the applause of the assembled crowd mounted the machine, and tried to look as if she was in the habit of doing that every day. Her ticket came from the New York Cash store, and it is said that she only had a half dozen or more. Mr. Skinner made her a cash offer of $500 for the prize, but she has not decided as yet to sell.

PERSONAL MENTION.

C. D. Ransdell, Jr., Detroit, Mich., is an arrival yesterday at the Alta Vista.

George B. Bent, a prominent mining man of Cripple Creek, is at the Alamo.

Chief Pearson of the fire department is able to be out after a siege with the grippe.

Don McKeehan is down from Cripple Creek where he is engaged on one of the mines.

Father McManmenamen of St. Mary's is very sick with the grippe at the Glockner sanitarium.

George E. McClelland of Idaho Springs, a mining man, is in the city and a guest at the Alta Vista.

J. E. Davidson and John I. Franklin went last evening to Bonanza, Colo., where they examined some mining properties.

Prof. M. C. Gile of Colorado college left last evening for Boston, called away by the death of Mrs. Gile's mother.

Mr. S. G. Witten, wife and child of Trenton, Mo., who are on their way to California, are visiting a few days with Dr. and Mrs. Madden.

Mr. Tom Christopher left last evening on the Rock Island for Jacksonville, Fla., and other points in the south, where he will visit for a time.

Denver people registered at the Alamo yesterday include the following: E. Darty, W. H. Esterbrook, L. W. Sleeper, C. W. Dix, T. J. Early, and E. H. Olds.

Mrs. M. A. Garstin has been moved to the Glockner sanitarium to recuperate after her late serious accident. She has been at the Lockhart ... several weeks.

R. LaB. Goodwin and wife of Chicago, are at the Alamo. Mr. Goodwin is an artist and is looking for a studio with the intention of locating in this city permanently.

Phil Delany got back Wednesday from his trip to New York. He was gone over three months, and spent most of the time in New York City. It was a pleasure trip as Mr. Delany needed a change to the sea level for a time. He reports a delightful time socially as New York is the most hospitable place in the world.

BRIEF CITY ITEMS.

CLAM BAKE—There is to be a novel entertainment at the Cheyenne Mountain Country club this evening. Messrs. Spencer Penrose and Clarence Edsall have invited 40 friends to a clam bake. ... number of barrels of fresh clams ... there will be a feast, with clam as the principal dish. A clam bake might be commonplace some parts of the earth, but in the heart of the continent, 6,000 feet above the spot he habitates, the "succulent bivalve" is not often served "all you can eat."

BUILDING IS BENT—The building on Pike's Peak avenue where the Aiken museum has been located for some time was the subject of an investigation by the building inspector yesterday. In the high wind a few days ago the building started to col-lapse. It is standing now bent so that a gentleman of bibulous habits stopped yesterday and thought he had 'em. There was an auction in the building yesterday.

PREPARING PLANS—Architect T. A. Pease is preparing plans for the new building of the Colorado Springs Packing company to be erected at the corner of Cucharas and S. Cascade. It is to have a depth of 85 feet on Cucharas and 85 on Cascade. It will be of brick and two stories in height. The cost will be about $10,000.

SANSON'S PRIZES—Joe Sanson, the dancing teacher, announces that on the evening of the 23d he is going to give a dancing party and will offer some handsome prizes. The lady's prize will be a bracelet and the gentleman's prize a medal. It will be an invitation affair.

CROWING CONTEST—The attendance at the poultry and Belgian hare show on N. Tejon street keeps up very well, and the managers are quite well satisfied. The exhibition closes tomorrow night. This afternoon at 3 o'clock there is to be a novelty in the way of a crowing contest. A prize will be given the cock that crows the longest and loudest.

FOURTH TEAM WON—At the Town and Gown ... team in the bowling contest beat the third team by 150 points. The fourth team was Lady Mellen, Mrs. Farnsworth, Mrs. MacNeill and F. W. Bartlett. The third team was Mrs. F. Gilpin, Charles Wright, ... Vellerand Claude Sa...

TO SALT LAKE

County Commissioners Doran, Greenway and Fairall left the city at midnight via the Colorado Midland road for Salt Lake, where they are going to spend a week or ten days looking over public buildings. They are accompanied by Architect A. J. Smith of the El Paso county court house and Sheriff Don C. Goddard.

In Salt Lake there is a building that is used jointly by the city and the county and it is this building particularly that the board will look at. They will visit other buildings in the city and examine the interior finishings, floors, etc., with a view to the incorporation of some of the desirable features into the El Paso county court house.

Open to Everybody.

Salt Lake excursion over the Rio Grande R. R. $15.00 round trip, Jan. 13, 14 and 15th. Make your sleeping car reservations early. Standard and tourist sleepers, also through dining cars. City ticket office, 16 N. Tejon.

Last weeks' selling of Muslin Underwear at Kaufman's.

If you have rooms to rent advertise them in the Gazette want column.

This week winds up the great Muslin Underwear Sale at Kaufman's.

The Best Train Service to Denver and Pueblo.

Is via Colorado & Southern Ry. Eight trains to Denver and five to Pueblo. City Ticket Office, No. 15 N. Tejon st.

Those who sat for photographs at the Steven's Fotografferie prior to Mr. Stevens' selling his portrait business can secure duplicates from them before Christmas in genuine platinum at the old carbon price, 24-26 E. Bijou street.

Amusements.

OPERA HOUSE ATTRACTION TONIGHT.

The new melodrama "The Angel of the Alley," which Sullivan and Harris produce at the Opera house this evening, is the result of an exceedingly novel experience of the author, Mr. Theodore Kremer. In order to give the ring of genuineness to the piece, Mr. Kremer found it necessary to come in personal contact with the different types of humanity which he was studying. As they were inhabitants of a certain quarter of New York which contains famous underground resorts and many darksome alley-ways, where fugitives from justice are safely hidden from the police, Mr. Kremer took up his residence in the heart of this famous district, and the result of his studies there is the new play "The Angel of the Alley." It is true to life in every respect and is a vivid portrayal of the adventures of a young officer who has been lured to one of the underground gambling resorts. Every scene used is an exact reproduction of the streets and alley-ways of this part of the town and the characters are typical of the district. Mr. Kremer has many amusing incidents to relate regarding his residence in this part of town and looks back upon it as one of the most interesting periods of his life. In addition to these scenes of New York there is also a very effective one representing the interior of Sing Sing and the famous "death cell" with the fittings of the electric chair and the intricate system of wires controlling the death current. To the average citizen these reproductions are something of a revelation, it being the first time such elaborate ... stage.

THE CHRISTIAN.

The most important theatrical event of the season will be the forthcoming engagement of Liebler & Co.'s production of Hall Caine's great play "The Christian," which is announced for Monday evening at the Opera house. The company is one of Liebler & Co.'s best traveling organizations and numbers upwards of 60 people, and includes many names of singular prominence in the dramatic world. Two carloads of special scenery are carried by the company ... the production in everydetail will be equal to that given in the metropolitan cities.

Owing to the enormous expense attendant on this production the best seats will be held at $1.60 and $1.00 and intending patrons will do well to anticipate their wants and secure their seats early, as there is every indication that the entire house will be sold long before the date of the engagement.

WHY SMITH LEFT HOME.

On next Wednesday evening the American success "Why Smith Left Home," by George H. Broadhurst, author of "What Happened to Jones," both of which have proven as great successes in England as in this country. In the "Smith" play Mr. Broadhurst has written a farce thoroughly up to date and its merit is thoroughly brought out by the capable company by which it is presented. The cast is as follows: Douglas Flint, Rose Hubbard, Eugene Redding, Nellie Markell, Augustus Mortimer, Lizzie May Ulmer, Frederic Roberts, Frank Craven, Elenor La Salle, Jennie Engle, Bessie Bruno and Charlotte Love.

Chamber Music Concerts.

Next Wednesday afternoon, January 16, the first of the three chamber recitals to be given by Mr. Rubin Goldmark and Miss Lucile Du Pre will take place. It will be devoted entirely to modern French music, containing sonatas by Cesar Franck and Gabriel Faure, and a group of French songs by Mr. Crampton. The second recital will occur on the following Wednesday and will be devoted to modern German music. The programme will consist of a sonata by Brahms, a violin concerto by Bruch and a group of German songs by Mrs. Tucker. The third recital will occur Tuesday evening, January 29, and will consist entirely of Mr. Goldmark's own compositions. Single admission for each concert will be $1. A course ticket for the three concerts will be sold for $2. Tickets are now on sale at the Hext Music company, The Knight-Campbell Music company and the Coburn library.

Can you write an easy business hand? Are you quick and accurate in arithmetic? Can you figure bank discount and interest readily? Do you understand bookkeeping, single and double entry? LITTLE BESSIE PROPERTY LEASED TO KINNEY AND DUNCAN

For a Term of Two Years--They Will Sink a Double Compartment Shaft at Once to a Depth of 200 Feet--Good Showing on the Claim.

The directors of the Little Bessie Gold Mining company have just granted a lease on the Beacon hill property of the company to Messrs. M. Kinney and D. J. Duncan, well known in connection with the Zoe, Lucrative, St. Thomas and other popular companies.

The lease is to extend for two years from date and stipulates for 20 per cent flat royalties. The lessees intend to sink a deep working shaft on the property and to install a plant of machinery, prospecting the ground thoroughly for the extension of the El Paso-Kimberly-Columbia veins which have been determined by a careful underground survey of those mines to cross the Little Bessie property.

D. J. Duncan left last evening for Cripple Creek to let a contract for 200 feet of sinking to be done immediately. The shaft will be a modern, double-compartment affair, complete in every way, and will be put down to a depth much greater than the immediate contract will call for, but the first stop for lateral work will be made at the ... point. After the shaft is started a plant of machinery will be installed, although it has not yet been decided whether it will include an electric or a steam hoist.

Two distinct veins have already been traced across the claim, which is located on Beacon hill adjoining the Cripple Creek Columbia and the Raater of the C. K. & N. One of these veins is known as the east and west vein, and the other is one of those which extend into the Columbia and the other properties, and is the extension of the west branch of the famous Mary McKinney vein. Both have been opened up the various shallow workings on the Little Bessie, and recent examinations which have been conducted in the new lessees' behalf have been successful in showing very favorable indications which determined Messrs. Kinney and Duncan to take the ground.

The new shaft which is going down will be an entirely new one to be sunk somewhere near the junction of the two veins. If the appearances at a depth of 100 feet justify it, crosscutting will be started at that point; if not lateral work will not be attempted until another 100 feet is gained.

THE PINNACLE ORE BODY

Lessee Glenn Thinks He Has Some of it in the Uncle Sam Claim of the Blanche Company.

Special to the Gazette:

Cripple Creek, Jan. 10. Lessee J. Glenn operating the Uncle Sam claim of the Blanche company thinks that he has the Pinnacle ore body in his property and that it is a very wide shoot. At the present development work is being carried out and in raise which is being run from the 250-foot level to the surface will be completed by next week. The connection was made for ventilation and the period of production will commence as soon as the development work is finished. In some places the width of the raise on the ore is 16 feet across. The values are good for nearly the entire distance except at the second level, where a barren spot was encountered. About four carloads of ore per week has been shipped, while the development work was carried out.

The reported strike in the Gold Dollar is merely a new development in the third level. A raise has been run for 30 feet on the part known as the middle vein, with the result that the shoot has increased in value and size. The ore body now measures from six to eight feet across the breast, with an average value of better than two ounces.

The strike in the Anaconda company's main workings did not entirely come up to expectations, but development work is being prosecuted which should result in locating a fine body of ore. ... broken into at the 3??-foot level and, although drifts and a raise have been made to determine the course of the shoot, the attempt has been unsuccessful so far.

S. O. Trescott, leasing the west block of the Pauper, has installed an electric hoist and other surface improvements preparatory to some active work. A crosscut was started yesterday from the 150-foot level at the point where the former lessee discontinued operations. The Hull City-Little vein is expected to be opened up in this crosscut.

The Easter Bell company has cut the Victor vein at a depth of 300 feet. The vein is something over two feet in width, although pay has not yet been found. At the point of cutting drifts will be started both ways in search of the ore shoot.

NEW SAN JUAN FLOTATION

The Sherman M. and M. Company Launched by J. McK. Ferriday And Company--Owns Extensive Ground Near Well Known Mines And Has Large Bodies of Low Grade Ore Already Blocked Out.

Messrs. J. McK. Ferriday & Co. of this city are preparing to float at once a new company to be known as the Sherman Mining and Milling company, owning extensive property in the San Juan district.

To be precise, the property consists of the General Sherman and the Champion lodes, and other claims, including a water right and timber claim.

The General Sherman lode consists of ?? acres in Hinsdale county, about three miles south of Lake City on the Lake fork of the Gunnison river, and surrounded by well-known producers including the Golden Fleece and Black Crook mines. There has been quite extensive development work done on the property in tunneling and shafting which has exposed a true fissure vein between three and 10 feet in width and averaging between four and five feet. The vein ... quartz impregnated with iron and copper and carrying varying values in gold and silver. There are large blocks of ore available which will yield to the water concentrating process, which will be employed.

Recent mill runs showed values between $18 and $28 to the ton in about the following proportions: Gold, $5 to $8; silver, $5 to $10; lead, $8 to $12, and copper, from nothing to $5.

In addition to the main Sherman vein ... which will be opened up in 200 or 300 feet from the present breast of the tunnel.

The surface is completely equipped with everything necessary, including a boiler house, 40 horse power boiler and engine, air drills, compressor, etc.

The Champion group lies 18 miles further up the river and consists of 45 acres, partly patented and partly in process. On these claims the company will have 4,500 feet of the Champion vein, which is between 15 and 70 feet wide, averaging in width 20 feet. In the center of this vein is a core of copper ore, containing values also in gold and silver, the average values which have been given by several mill runs being about $66 to the ton. The rest of the vein will average more than $20 to the ton, the values being mostly in copper, with a fair percentage, however, of gold and silver.

The shaft on the Champion group is down to a depth of 160 feet and there are 200 feet of drifts, crosscuts, etc., all in good ore yielding easily to pyritic smelting, as it carries a good amount of iron.

It has been estimated, by careful and conservative figuring, that there are at the present time 6,000 tons of the high grade ore in sight and 30,000 tons of the low grade, both kinds aggregating something like $250,000 net.

This group is equipped with a 44 horse power boiler and engine, a hoist good for 500 feet, and shaft house, together with drills, tools, etc.

On one of the company's other claims a four-foot vein of high grade ore has been opened up.

The San Juan district has been coming to the front very rapidly of late with new mines and mills, and the success of the Butterfly-Terrible company has had a good deal to do with its reputation in this city. The present company owns a large acreage and has a great deal of ore already blocked out which it will treat at a mill to be ... on or near its property. The ore does not run into high values, but it is the low grade propositions of this district which are yielding the handsome profits. The Golden Fleece mine, adjoining the Sherman, is treating $7 ore at a good profit. The Black Crook mine has recently opened up a ... of $100 ore.

The Sherman company will be registered by the Colorado Springs Mining Stock association. The promoters are going to place 200,000 shares only of the stock in this city at 15 cents a share, and afterwards the price will be raised to 20 cents. It promises to be a popular undertaking.

ZOE'S NEW VEIN OVER 14 FEET

At a Distance of 60 Feet From the Shaft the Vein Now Measures 14 Feet in Width. And the West Wall is Still to be Cut--Rich Values.

Zoe was again a feature of the market yesterday, and it is learned that the succession of remarkable discoveries which have been made in that ... end.

The vein which was cut the other day in a crosscut 60 feet west of the shaft has now been drifted through 14 feet, and the west wall has not yet been encountered. The last three feet of the vein has been very richly mineralized, carrying the same showing of sylvanite which has made the main vein such a bonanza, but no assays have yet been obtained on it, and work is being concentrated on discovering the other wall.

... the shaft is greater than it ... bottom of the shaft is greater than it ever was, according to the information which comes from the mine. In this vein the Zoe company has one of the most remarkable mineralizations in the history of the camp, and if it continues as it now shows, the property unquestionably has a great future.

HART IS GETTING GOOD ASSAYS

In a Vein Varying Between Four And Five Feet In Width the Ore is Running as High as $40 in Gold to the Ton.

The showing on the property company is growing better as work is progressing. At a depth of 275 feet the company is drifting on a very strong vein, ... was opened in the shaft, and ... now gone 150 feet each way, ... west and southeast and the showing is very encouraging. The vein varies between four and five feet in width and the assays are now running between a few dollars up to $40 in gold to the ton. About 275 feet of drifting is accomplished each way every month, and the present showing indicates that something very substantial should be encountered soon.

In the west vein on the property a total of 125 feet of drifting has been done, and there is a fair showing there.

The lessee on the Jessie G. is sinking his shaft to the 100-foot point on a very promising vein and will soon put on a hoist. He has had good assays from the vein and hopes to get shipping ore with depth.

The two center claims of the group the company is working, the eastern one is leased and the western one will be. It is the intention of the company to lease all of the portions of the property which are not being worked now.

MINING NOTES AROUND TOWN

The shaft house on the property of the St. Thomas Co. on Beacon hill has now been completed and the machinery installed. Active work has just been begun under ground and the company will crosscut from the bottom of the 300-foot shaft at once for the contact vein and those running parallel to it. The shaft is now being retimbered and new ladders are being put in and everything made ship shape preparatory to a most aggressive campaign of development work. The management predicts that within 30 days the mine will be shipping ore regularly.

DORSEY INVESTMENT CO. NOW CONTROLS MARIA A.

At the deferred annual meeting of the Maria A. Gold Mining company which was held in this city Wednesday afternoon it was found that the controlling interest in the stock was held by the Dorsey Investment company and their clients. The company was formerly in the hands of the Reed and Hamlin Investment company and J. R. McKinnie. Out of the 1,500,000 shares ... was voted for the following ... and directors: President, H. H. Dorsey; vice president, P. ... J. Day; secretary, Ralph Young; treasurer, F. H. Pennington, and F. ... directors. The new management will probably soon start work on its own account, as there is over $2,500 in the treasury besides a little less than ... shares of the stock. A portion of the claim, which is well located on Raven hill, will be leased. The offices of the company will be moved from the Reed and Hamlin offices to those of the Dorsey Investment company.

COLD BOND WILL DO WORK ON COMPANY ACCOUNT.

The Gold Bond company, owning the property on Gold hill, has decided to begin work on its own account and will begin the sinking of a shaft now down to a depth of ?? feet to the 300-foot point ... A very favorable showing will ... developed on the property of this ground under lease to Ross and Hummer, and the company will sink so as to catch the same vein, putting the 300-foot point before any lateral work is attempted.

NUGGET COMPANY PAID A DIVIDEND OF $9,910.

The Nugget Mining and Milling company yesterday paid a dividend of 1 cent per share on the total outstanding capitalization of 990,100 shares. The amount distributed is therefore $9,910, and was paid to all stockholders of record on the 5th inst. The dividend is paid from the funds in the treasury which had accumulated from the royalties received from a lease on the Elizabeth Cooper claim, and from the profits of the company's own mining on the same property. The company will receive an income of $3,000 a month from the stock which it owns in the Doctor-Jack Pot Consolidated and will probably maintain quarterly dividends. The company had already distributed a dividend of $20,000 paid from the profits of a sale of property, so their total is now $29,910.

INGHAM DISTRIBUTES ITS FIRST DIVIDEND.

The Ingham Consolidated Gold Mining company yesterday paid a dividend of ½ cent per share on the total amount of stock outstanding, which is 1,360,000. The dividend amounted to $6,800 and was paid to all stockholders of record on the 5th inst. The money which was paid out was part of that which had accumulated in the treasury ... The company will receive an income of $3,750 a month from the Doctor-Jack Pot ... company and will probably maintain quarterly dividends.

NEW ZEALAND COMPANY PAID $60,000 YESTERDAY.

The New Zealand Gold Mining company distributed a special dividend yesterday amounting to $60,000, which was at the rate of 10 cents per share on the total capitalization of 600,000 shares. All stockholders who appeared on the transfer books of the company the 5th ... It was paid from funds received from W. S. Stratton, who purchased the New Zealand claim of the company for a very liberal amount.

MARY M'KINNEY PAID ITS QUARTERLY DIVIDEND

The Mary McKinney company yesterday paid its quarterly dividend of 3 cents per share on its total capitalization of 1,000,000 shares, amounting to $30,000, the amount to be paid to all stockholders of record of the 7th inst. The company is in excellent financial condition and is able to pay a larger dividend than it is paying, but is awaiting the developments in the fifth level of the mine. To date it has distributed to its stockholders $210,000 as profits.

ENOLA COMPANY PAID A STOCK DIVIDEND.

The Enola Gold Mining company yesterday distributed a stock dividend of Bull Hill Consolidated shares. The company recently sold its claim to the Bull Hill company, for which it received 150,000 shares of Bull Hill stock. This it paid out to its stockholders at the rate of 15 shares to every 100 and they will go to the stockholders of record on the 4th inst.

DETROIT PROPERTY BEING LEASED IN TWO BLOCKS.

The Detroit Gold Mining company owning the Devide claim on Tenderfoot hill, are leasing their property in two blocks. James B. Tyderman has ... the north ... a two-year ... on the ... block and is actively pushing ... and is ... sinking a shaft on a vein that crosses the property at that point showing values of $... per ton on the surface. It is expected that a rich vein will be opened ... Propositions are being made for leasing the south part of the property, where the company have a shaft 200 feet deep from which point some drifting has been done. The proposition is to sink this shaft 100 feet deeper and then crosscut, catching the main discovery vein of the Hoosier which is known to come down into the Detroit property at about this point. It is believed that since the Hoosier found bonanza values in this vein that the Detroit will find the same. Work will be vigorously pushed as soon as the lease is completed.

This season there is a large death rate among children from croup and lung troubles. Prompt action will save the little ones from these terrible diseases. We know of nothing so certain to give instant relief as One Minute Cough Cure. It can also be relied upon in grippe and all throat and lung troubles of adults. Pleasant to take. Hefley ... Drug Co. E. E. Smith, 117 South Tejon street.

VINDICATOR ANNUAL MEETING HELD

At the Company's Offices in Denver Yesterday--Officers And Directors Were Elected--Reports Will be Mailed on the 25th Inst.

The annual meeting of the Vindicator Gold Mining company was held yesterday afternoon in the offices of the company in Denver. Out of the 1,100,000 shares of the stock which are issued ... shares were represented either in person or by proxy. The meeting was perfectly harmonious, and resulted in the election of the following directors to serve for the ensuing year: F. L. Sigel, F. J. Campbell, A. J. Zang, G. S. Wood and C. F. Potter.

Reports were submitted to the meeting reviewing the work which had been accomplished during the past year, the condition of the treasury, etc., but these will not be ready for publication until the 25th inst., on which day the dividend will be sent out with the statement of the output, checks ... The earnings, etc., are not yet made up due to the fact that returns have not yet been received on all shipments of ore made previous to the meeting.

After the stockholders' meeting had adjourned the newly elected directors met and chose the following officers: President, F. L. Sigel; vice president, G. S. Wood; treasurer, A. J. Zang, and secretary, F. J. Campbell, while Charles F. Potter will act as attorney for the company.

The regular quarterly dividend of the company which has just been declared is still at the reduced rate of two and one-half cents per share, amounting to $27,500 instead of $55,000 which had been the amount paid for the quarter previous to last October. The reduction was thought advisable on account of the expense of installing new machinery and investing in the Union mill at Florence. The present dividend will be paid on the 25th to stockholders of the 20th inst., and when it is paid the company will have distributed a total of $...,000.

Save $5.00 on a winter overcoat at Kaufman's Reorganization Clothing Sale.

Want Ads. on Page nine.

XERXES OWNS 9 1-2 ACRES

The Xerxes Gold Mining company, mention of which was made in these columns yesterday morning, owns a claim on Galena hill, which contains nine and one-half acres of ground, and not one and one-half as was, through an inadvertancy, stated. It will be seen that the Little Emma S., the name of the property, is nearly a full claim, and the company holds a patent for it.

Plans are perfecting for the early leasing of the ground, and it is expected that lessees can be obtained on terms very favorable to the company, as there ... are now in good demand by lessees owing to the excellent showing on the Sunshine and Sedan properties.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Jan. 10.—The market on 'change today was more active than it was yesterday, especially in the prospects list where the trading was very animated, and prices fail to advancing. In the mines list the business was not so satisfactory, and the unlisted department received rather scant notice, both Ernestine and Sedan having declined in popular interest as well as in price, but the pit call continues to attract much attention and was as heavy as usual. The condition of the market was very satisfactory on the whole, and the indications now are all for a steady and strong market for some time. Yesterday and the day before slight fractional losses were scored in a few stocks, while one or two suffered even more, but that was only to be expected. Today the [illegible] is seemed to be on the healthy basis created by a good demand and the promises for the future are very encouraging.

The market in the afternoon was not quite so heavy as it was in the morning and prices were reactionary again, which seemed to intimidate some weak-hearted holders. But the general run of stocks manifested much firmness and some good gains were scored. Of the latter Little Bessie was prominent, selling up to 5¾ and Bob Lee closed strong at 6⅝. The feature of the afternoon's trading was the strength of Kimberly, which sold up from 13⅞ to 15⅛ under good trading, and the stock sold as high as 15¼, buyer 30. In the mines list Elkton advanced to $1.88, and Gold Dollar recovered slightly to 24½. Lexington was also fractionally stronger at 12⅝, but Work sold down to 20¾. Missouri sold up to 5½ under heavy trading, but Nellie V. was very low at 6¾. Ernestine closed at 3½, and Sedan sustained quite a loss to 12⅞. Pointer closed at 17 and Zoe at 14⅝.

The trading for the day amounted to 1,053,237 shares, of which the cash value was $107,335.

NOT THE ONLY ONE.

There Are Hundreds of Colorado Springs People Similarly Situated.

Can there be any stronger proof offered than the evidence of Colorado Springs residents? After you have read the following quietly answer the question.

M. [illegible], foreman of the Gazette, says: "For five or six years I was annoyed with attacks of backache accompanied by slight urinary trouble. I took more than one medicine said to be a sure cure for kidney complaint, and like a great many others in Colorado Springs, I procured Doan's Kidney Pills at Jones & Wellington's drug store, expecting the results from their treatment to be as unsatisfactory as those from other preparations I had taken in the past. The benefit received justifies me in saying that anyone suffering from kidney complaint or backache will find in this preparation something which acts differently and more effectively than anything heretofore tried."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

Always on Time to Denver, Is the 8 a. m. train on the Colorado & Southern Ry. It is one of the eight daily trains.

Proposition Number 2

Underwritten against loss, and a fifty to one shot on a big profit. It's a winner. The asking will bring the details. It's about California oil. Nothing else brings so much for a little.

Munson Investment Co.

A. S. MUNSON, Room 51 De Graff Building.

Oil vs. Gold

Oil mining is more profitable and much less expensive than gold mining. Routt county is destined to be the greatest wealth producer of the state. It will vie with Cripple Creek as the richest territory of the west. If you got in on Cripple Creek after prices were up, don't miss it on Routt county. Get in at low flotation prices. The land of The Northwestern Oil and Coal Co. is in the very center of the oil basin. Investigate it.

WALTER W. SHEMWELL, Treas.,
50 Hagerman Bldg. Colorado Springs.

Burlington Route

You Deal With But One Concern.

The Burlington Route operates its own trains over its own tracks every foot of the way from Denver to Chicago and St. Louis.

When you buy a ticket over the Burlington you deal with but one concern. If you have any cause for complaint, or think you have, which amounts to the same thing, you do business with but one railroad. You are not told that "we're not responsible for this," or "he shouldn't have said that," or "we'll refer this to our Chicago office."

Two trains a day Denver to Omaha, Chicago, Kansas City, and St. Louis—the Chicago Special at 4:00 p. m., the Vestibuled Flyer at 10:00 p. m.

Train for Black Hills, Montana and Puget Sound leaves Denver 11:30 p. m.

Tickets at offices of Connecting Lines.

Denver Office, - - 1039 Seventeenth Street

G. W. Vallery, General Agent.

On January 13, 14 and 15, the Colorado Midland Ry. will sell tickets to Salt Lake and return at rate of $15.00 for the round trip.

Good for return until January 31. Call at City Ticket Office, 13 N. Tejon street, or 'phone 376.

HOLIDAY RATES.

Colorado Midland Railway.

One fare for the round trip to all points in the state. This includes Cripple Creek, Buena Vista, Leadville, Aspen, Glenwood and Grand Junction. Tickets on sale December 24, 25, 31, and January 1.

Call for further information at City Ticket Office, 13 N. Tejon St.

Going to California?

Rio Grande trains, 10.29 a. m., 11.58 a. m. and 10.37 p. m. Through Pullmans, dining cars and tourist sleepers. Office, 16 North Tejon street.

You Are Correct

In the statement that the dining car service on the Rock Island is the very best in America and the entire train service is up to the same standard.

It don't cost any more to travel via this line than the others either. Make your arrangements for your trip through to destination at City Ticket office, No. 12 Pike's Peak ave.

Also steamship tickets via all conference lines to Europe.

W. W. Wood, Gen. Ag't Pass. dept.

$18.00 Salt Lake and Return $18.00 Over Rio Grande Railroad,

January 13, 14, 15, return limit January 31. Choice of four routes.

Always on Time to Denver, Is the 8 a. m. train on the Colorado & Southern Ry. It is one of the eight daily trains.

DR. PRICE'S CREAM BAKING POWDER

Used in Millions of Homes—40 Years the standard. A Pure Cream of Tartar Powder. Superior to every other known. Makes delicious cake and pastry, light, flaky biscuit, griddle cakes palatable and wholesome.

PRICE BAKING POWDER CO., CHICAGO.

NOTE.—Avoid baking powders made from alum. They look like pure powders, and may raise the cakes, but alum is a poison and no one can eat food mixed with it without injury to health.

FALLING OFF IN ACTIVITY

Prices Generally Decline Throughout The List.

WESTERN UNION WAS STRONG

Persistent Short Interest Effected a Rally From the Lowest Point—Dullness and Sluggishness Prevailed

New York, Jan. 10.—There was a decided further falling off in activity of the trading in stocks today and prices fell back very generally throughout the list. There were abortive efforts to continue the advance, both at the opening and at different times during the day, but the market did not at any time show any decided strength. The most [illegible] were able to achieve was to check the reactionary tendency. The [illegible] during the latter part of the day and the demand to cover from the shorts lifted the level of prices considerably above the lowest.

The spurt in L. & N. just at the close on the increase in the dividend rate helped the market somewhat although there was no general response. The closing was, in fact, [illegible] and irregular and at a substantially lower level of prices. The first movement of the bulls was in the southwesterns and some of the specialties, including Texas and Pacific, Union Pacific, Southern Pacific, Delaware and Hudson, People's Gas and Western Union. The last named stock was the only one of the group which showed sustained strength with an extreme advance of nearly three points. Missouri Pacific was marked up at one time to 87, but fell back to 85. The existence of the persistent short interest is a material factor in the resisting power the market. It played its part in effecting the rally from the extreme low point. It played its part in effecting the rally from the extreme low point. The marked feature of the trading after the heavy selling ceased was the dullness and the sluggish movement of prices.

Prices of bonds moved irregularly in sympathy with stocks. Total sales, par value, $2,400,000.

U. S. refunding 2s advanced 2¼ in bid price.

New York Money.

New York, Jan. 10.—Money on call steady at 2½@3½; last loan 2¾. Prime mercantile paper 4½@5.

Sterling exchange firm with actual business in bankers' bills at 48[illegible] for demand and at 483⅝@¾ for 60 days. Posted rates 483½@484 and 48[illegible]@487. Commercial bills 482¼@⅝.

Silver certificates 64⅛@65. Bar silver 63⅛. Mexican dollars 48¾.

Bonds: Governments steady; state inactive; railroads irregular.

The London Market.

New York, Jan. 10.—Commercial Advertiser's London financial cablegram: The markets here were slack and idle today and there was evidence that interest is passing from American securities to those of the home market. Americans began heavy and after displaying a hardening tendency, broke sharply, closing flat and disheartening.

The Metal Market.

New York, Jan. 10.—Bearish conditions continue to be dominant in metal circles generally. Tin was again lower both here and at London, owing to the lack of speculative interests. The close at London was weak at £119 7s 6d. The local market opened easy, ruling slow all day with a weak undertone and finally closed easy at $26.40@26.50. Copper was easy, £72 1s 3d at London; the local market for that option held quite firm, $17 for lake, and $16.62½ for casting and electrolytic. Domestic iron markets continue somewhat nominal, but sentiment is bullishly inclined on account of an unexpected large inquiry in the near future. Lead and spelter were inactive and barely steady, closing $4.37½ and $4.10@4.15 respectively.

Coffee Market.

New York, Jan. 10.—Coffee—Spot, Rio easy; No. 7, invoice, 7⅝; mild easy; Cordova, 8@12½.

Chicago Cattle.

Chicago, Jan. 10.—Cattle—Receipts 8,000. Good to prime native steers, $5.35@6.10; poor to medium, $3.60@5.26; stockers and feeders steady, $2.75@4.40; cows, $2.65@4.25; heifers, $2.75@4.50; canners, $2@2.60; bulls, $2.75@4.40; calves, $[illegible]; Texas fed steers, $4.10@4.90; grassers, $2.50@3.50.

Hogs—Receipts 30,000. Mixed and butchers, $5.15@5.47½; good to choice heavy, $5.20@5.47½; rough heavy, $5.15@[illegible]; [illegible] $5.25@5.35.

Sheep—Receipts 10,000. Good to choice wethers, $3.60@4.75; fair to choice mixed, $3.60@3.85; western sheep, $3.85@4.65; Texas sheep, $2.50@3.60; native lambs, $4.25@5.60; western lambs, $5@5.60.

Chicago Grain and Provisions.

Chicago, Jan. 10.—Wheat was only moderately active, but still nervous. Trade was largely local. May opened ⅛@¼c higher at 78¼ to 78½, because Liverpool was firm in the face of the decline here yesterday. On lack of support the market dropped to 77⅞, but rallied to 78⅜c on a private Argentine estimate that the exportable surplus of that country would be but 35,000,000 bushels. This influence soon died out, however, and May dropped to 77⅛@77⅜c. Here the market steadied on the New York report of 50 loads taken for export and the close was a shade higher at 77¾@77⅞c.

Corn was quiet.

Oats [illegible] within a narrow range.

Provisions opened higher in sympathy with an advance at the yards, but gave way later under local pressure.

The leading futures ranged as follows:

Articles	Open.	High.	Low.	Close.

On the produce exchange today the butter market was dull; creameries 15@22½; dairy 12@21; cheese 10½@11¾; eggs 19.

Pepsin preparations often fail to relieve indigestion because they can digest only albuminous foods. There is one preparation that digests all classes of food, and that is Kodol Dyspepsia Cure. It cures the worst cases of indigestion and gives instant relief, for it digests what you eat. Hefley-Arcularius Drug Co., E. E. Smith, 117 South Tejon street.

GAZETTE'S DENVER MINING LETTER

(Special Correspondence.)

Denver, Jan. 9.—The most sensational strike ever made in Ward mining district was the cutting of the big Columbia vein through the crosscut tunnel from the Dew Drop lode. In drifting east on the trend of the vein the ore body has opened out to 12 feet thick of smelting and milling ore.

The crosscut tunnel is being continued beyond the intersection of the vein through a pink colored spar mineralized ledge or dike that carries values of from $3 to $5 per ton. In prosecuting work in the trend of the Ni Wot vein the drills are pushed through that portion of the vein known as milling dirt which is six feet thick and is filled into cars and shipped direct to the Culbertson mill situated four miles east of Boulder city, and after resuming the smelting ore [illegible] a row of holes are put in to take down the best ore without mixing it with the lower grades. Thus the first class mineral is blasted down and shipped direct to the smelter with no assorting whatever. There are three carloads of this first grade ore now at Boulder, and three or four other cars loaded which will be started for treatment today. The [illegible] of the ore shipped of the above quantities is not yet known, neither will the correct figures be ascertained until the ore has been treated and a certificate given for the amount. From numerous assays made of the smelting ore the results have been most satisfactory to the management, showing values in gold from six ounces to ten ounces per ton, but these figures seem too high for the ore contained in the Columbia vein, and it is very doubtful if such wonderful results will be obtained from a vein of such magnitude. The importance of the strike to Ward mining camp cannot be estimated, as the tunnel pierces the vein at much greater depth than the Ni Wot old workings, and partially at least demonstrates the fact that the fissure veins of Boulder county are [illegible] in the precious metals as depth is attained. The Utica and B. and M. should convince the most skeptical that [illegible] in this section of the [illegible] required to produce the best results. Colonel Wesley Brainard of Camp Talcot said to your correspondent: "This is the most wonderful strike I ever saw. It is a magnificent ore body and will give a new impetus to many of the old [illegible] who have been working from hand to mouth for the past 20 years, to go and do likewise. The strike is a beauty and [illegible] claimed for it."

Experiments are being made at the Dew Drop mill on the mineralized stuff that comes from the new strike, but up to this writing they have proven very unsatisfactory. This will not deter the management from going ahead and perfecting their plant until it reaches that stage of perfection in saving the values contained in the ore.

The B. and M. mine has been the most sensational in Ward during the past year. Every little while a rich strike is reported in the local papers which would give large dividends to the owners if true. True the company has acquired considerable property [illegible] Boston mill and when ready to treat the immense tonnage of low grade mineralized matter the property produces will be a great saving in the monthly expenses that are now being incurred for treatment in eastern mills. The B. and M. is a good [illegible] producing large quantities of high grade [illegible] ore.

The writer examined the Utica mine during the administration of Mr. John S. Reid, who is now mining in California. The mine was full of levels of rock ore and was a beautiful sight as the crystallized quartz and iron show up to perfection under the rays of the candles. We examined the ore body in the face of the drift and stope and the [illegible] ore that was ready for the mill and smelter when hoisted to surface. The Utica under the careful [illegible] of Mr. Reid [illegible] standing in Boulder [illegible] that district that it never [illegible] be developed the famous [illegible] a paying mine. There is little [illegible] property today and [illegible] is being done by its present manager, Al Davison. It is a wonderful property and should be successfully operated because of the immense ore bodies that are found in the lode. The mines and mill are owned by a Philadelphia company, a close corporation and it does as it pleases independently of criticism by the press or unpleasant remarks of would-be dictators [illegible].

F. J. Temple, owner of the Emancipation mine near Sunshine was in Denver yesterday. He has had his property on the market for sale for some time. New York and Boston capitalists were dickering on the purchase. Experts were in Boulder making examinations and very carefully tested the value of the ore exposed in the workings and on the dump. Everything seemed to be complete for a change of ownership even to the calling of Mr. Temple to Boston to complete the sale. By some unaccountable means known only in mining transactions the sale fell through and Mr. Temple continues to own the mine and take out good ore in sufficient quantities to pay all working expenses and leave a good surplus for a rainy day.

The Tambourine mine on Four Mile gulch is now controlled by a company of Colorado Springs capitalists, who are reported as pushing work and making regular shipments of ore to the several mills. This is a good property and with careful management should make a first class proposition.

A large amount of money has been taken out of the Tambourine by the several parties who have leased it, and it should be a good paying investment to the present company.

The Scotia mine at Summerville, near the Victoria, is being operated and a large plant of machinery has recently been put in place for more thorough and rapid development. This mine when first discovered produced phenomenally rich ore, which caused intense excitement in Boulder and mining camps surrounding Salina. Thousands visited the camp for the purpose of procuring a specimen of the beautiful crystallized sylvanite ore which was valued at $30 per pound by the owners. But the price of the ore made no difference provided the specimen fiends get a "nice specimen for their cabinet." Many pounds of this rich ore was taken from the owners and sold in Boulder and Denver.

Midway between Salina and Summerville is the Ingram mine, owned by a St. Louis corporation, and managed by [illegible] in good ore (sylvanite) and paying well. On the northwest side of the gulch is the Richmond mine formerly owned by Dr. Heath of this city. The mine has been badly managed in the past, but hopes are entertained that under the new regime it will pay well. Ore is being shipped to Boulder regularly that brings a good price.

IT CURED THE DOCTOR.

New Scientific Dandruff Treatment Recommended by a Physician.

Mrs. Mary C. Crawford, Oakesdale, Wash.: "Herpicide cured me perfectly of dandruff and falling hair."

Dr. E. J. Beardsley, Champaign, Ill.: "I used Herpicide for dandruff and falling hair and I am well satisfied with the result."

Alf. H. Kelly, 2195 Desadero street, San Francisco: "Herpicide put a new growth of hair on my head." Herpicide does more than is claimed.

Herpicide kills the dandruff germ. Destroy the cause, you remove the effect—dandruff, falling hair and finally baldness. At all druggists.

Kaufman's Reorganization Clothing Sale is the attraction of the day. Don't miss it.

STATE MINING

CHAFFEE COUNTY.

Some sales of copper properties are reported from the vicinity of Howard. This region is said to copper and some [illegible] did prospects are being developed. It is said that eastern capital is coming into the district.

It is rumored that Res and Larson have cut another ore body in their crosscut tunnel into the hill on which they made several fine surface discoveries. The tunnel opens out on the Calumet Branch of the Rio Grande and is planned to cut several more veins yet.

S. Lyod Fox, one of the leasers of the Calumet mine, has returned from New York City, where he went to secure capital for the enterprise of development. He states that he was successful in accomplishing his object and that very soon some heavy work will be inaugurated on the new shaft that is being sunk to develop a free gold vein.

Charles Higham reports a good strike [illegible] the Annetta [illegible] Cameron mountain. The Annetta is the extension of the Prairie vein which is conceded to be one of the best prospects in that vicinity. The vein at 25 feet depth is a foot wide, with a rich streak of three inches. The St. Louis tunnel will cut this vein at about 375 feet additional distance. The strike is considered one of the best made in the camp for some time.—Salida Mail.

GILPIN COUNTY.

Burton S. Lake is extending levels in his [illegible] mine, but of late has not been sending any ore away.

The Woodbury Gold Mining company has accomplished a great deal of development work on the Herbert group of veins.

The Climax mine, west of the Mackay-Burroughs, which has been idle, will receive further exploitations by a company the first of the coming month.

The Mackay-Burroughs is still undergoing development by the local pool formed some two years ago. Al Christopher is in charge of the mine.

The Fourth of July was also worked and considerable dead work in development accomplished. It is now connected with the Gilpin Tramway line.

During the past year the Pocahontas has been worked, new shaft buildings put up and the plant in use at the East Topeka shaft installed. At present the mine is idle.

The Scandia mine, owned by an eastern party, is working under the management of Michael Wisobeck. The shaft is down 700 feet and some fine-looking ore is being raised to the surface.

On the summit of Quartz hill the Alps Mint pool, composed of local men, has kept up regular shipments. The development made the past year exceeds that of any previous year since the present pool took charge of the mine. The values in the ore are of the same character as when the pool was receiving the large dividends. With new ground opened up the Alps will prove as productive as in former years.

The Rome Gold Mining company, on the Clark-Gardiner, J. W. Bostwick, manager, and John W. Cannon, foreman, have [illegible] main shaft age which is now down to a depth of 820 feet. In the 600-foot level a good shoot of ore was encountered. They are now extending the seventh level to catch the same shoot of ore. They are also extending the 800 foot levels, the lowest ones in the mine. Crude ore in 50-ton lots is being shipped to the Rocky Mountain concentrator in Black Hawk. Smelting ore is also being shipped. During the past year the mine was connected with the side-track to the California mine.—Gilpin Observer.

LEADVILLE.

The capacity of the ore bins at the Little Winnie shaft of the New Monarch Mining company has been doubled recently, and the appearances indicate heavy shipments. This property is apparently a good one, although but little is known about it in this camp and the management seems inclined to maintain considerable secrecy in regard to its doings. No matter how good a mine may be, such [illegible] of the bona fides of the operators and is unfair to stockholders.

Manager Howard Collins of the Arnold Mining and Leasing company reports good progress at the Rose-Emmet shaft. He is drifting east at the 475-foot level to catch the ore opened in the upraise from that level which was found to be dipping to the east or northeast. Everything looks favorable for the finding of a body of ore in this contact and development will probably show up one. The shaft has reached a depth of 590 feet and has just passed through about 10 feet of flint. On top of this flint some iron was found. The finding of this flint gives some encouragement that the lime may soon be penetrated and a lower contact discovered. The development of this section of Carbonate hill has been slow, but this shaft should prove up its value. Work in Graham park and Iron hill has proven up several shoots of ore trending toward the southerly end of Carbonate hill. That these continue through here is almost certain, but until recently no systematic effort has been made to prove them up. With the sinking of the Rose-Emmet and Toledo Avenue shafts, some one or more of these ore shoots is almost sure to be found, as well as the ore shoots upon the lower contacts.

The Fisk-Julia shaft in Iron gulch has been unwatered and sinking is in progress. A depth of 320 feet has been reached and the ore shoot opened in the First National shaft will probably be cut in less than 80 feet further. This proposition, which is operated by the Reno company, looks like an easy winner. A great deal of ore was mined in the adjoining property, and unless it cuts off abruptly it seems sure to extend into the Fisk-Julia ground.

The Dwyer shaft of the Empire Mining company is now down 115 feet. Quite a little iron pyrites is showing in the porphyry and it is possible that a body of ore may be encountered in a short time. This shaft is on the Empire gulch slope of Long and Derry hill, and in this locality considerable ore has been mined at shallow depths. In the early days the Long and Derry mines, from which this hill takes its name, were considered some of the largest in the camp. Development in the Empire property will doubtless open up [illegible] large ore bodies as those found in the early days, and at the same time will give renewed activity to all that section.

A fine showing of heavy lead ore has been recently opened in the Sedalia mine. The ore is found above the 700-foot level and gives promise of opening into a large body. It lies west of the shaft and is apparently a parallel shoot to the Yankee stopes worked some years since. The eastern workings are also showing excellent indications and a rich discovery in that portion of the property may be expected at any time. The stock is selling at a ridiculously low figure, when the condition of the mine is considered, and looks like a money-maker for investors at present prices. On any other market in the world this stock would go rapidly at quoted prices. Leadville miners and business men should take more interest in the mining stock market and by so doing a great impetus would be given to the mining industry.

The big Jeansville pump in the Pyrenees shaft of the Rialto Leasing and Mining company was started up Saturday and worked very satisfactorily. It is probable that the water will be removed and then work can be commenced on the ore body developed on the Greenback line. This, from all accounts, is a very strong ore shoot and carries excellent values. The stock of this company has been quite a favorite recently and several blocks have changed hands in the past month.—Leadville Miner.

A Delightful Trip.

January Inventory Sales

Blankets and Comforters

We think it a good time now—COLD, you know—to dispose of a large surplus stock of Comforts and Blankets. You need them, we have them to sell at SPECIAL REDUCED PRICES. See them in our Windows. Sample Prices. You'll find these goods to suit you in OUR stock, both in quality and prices—68c, 75c, 90c, $1.00, $1.25, $1.50 and up to $3.50. About one-fourth less than ANY prices shown you elsewhere.

FURS—You Can Buy—FURS

Select from our stock at a saving of 25 to 50 PER CENT, some very elegant Furs to close out entirely this month. Look at FURS here before you buy. Say, did you see that elegant $40 Wool Seal Cape in our window? The price will be reduced one [illegible] every day until sold or given away. Watch it.

Ribbon Sale

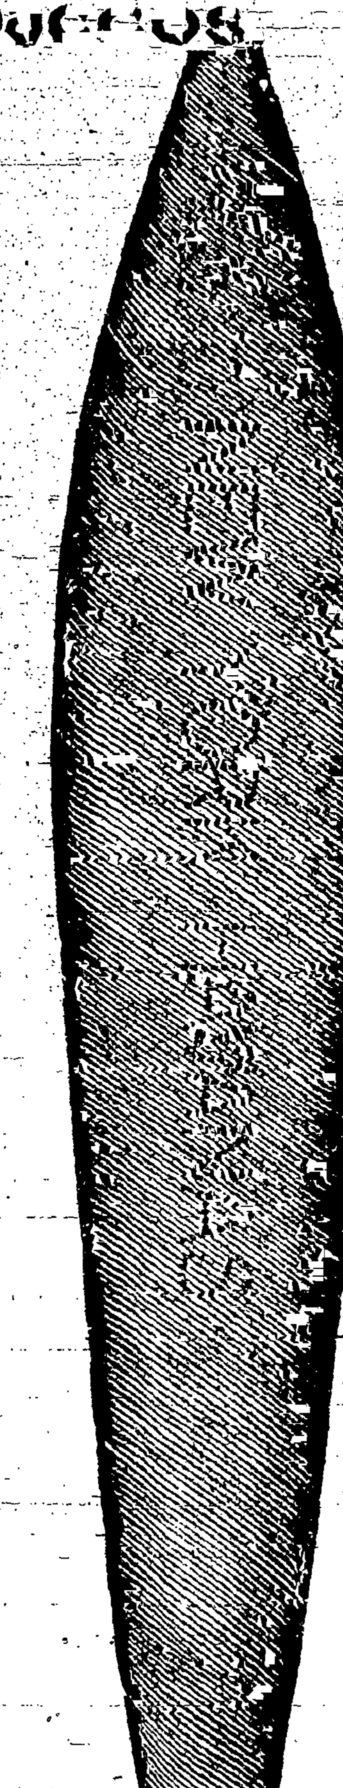

this week—[illegible] pieces fancy and plain Silk Ribbons assorted from invoice lot, worth from 20c to 40c yard, all widths—yours at

13c per yard.

DOWNER
20 YEARS IN COLORADO SPRINGS.
Phone 142. 104½ Pike's Peak ave.

BERT WISE.
Rooms 14-17 up stairs, 112½ East Pike's Peak avenue.
REAL ESTATE AND INSURANCE.

The 19th century, because of the wonderful advancement made in Art, Science, Medicine, Surgery, Astronomy, Geology, Inventions, and all kinds of business over that of the preceding century, was a "hummer." But it has gone, and the 20th, a new century, has dawned upon us. And with its dawning, we, a new Real Estate firm, begin business in Colorado Springs. And if the good business people of the city will share with us their ... we will ... toward making this new century much more of a "hummer," in a business way, than was the one just passed. If the iron is not already heated, and ready to be fashioned to your liking, let us make it hot, shape it for you, by pounding.

We already have a very encouraging list of choice properties for both sale and rent. Houses 5 to 13 rooms, furnished and unfurnished. If there are others, who wish to sell or rent, list your property with us and see if we don't make things hum. If you wish to buy or rent, come in and see us. We want your patronage and ... to all. We are here to stay. Yours for business.

BERT WISE.

Daylight Ride Thro' the Mountains In Tourist Sleepers.

Over the Colorado Midland railway, leaving Denver, Wednesday of each week at 8:30 a. m., running through to Los Angeles, Cal., without change.

The cost of a double lower berth is only $4.50 and the service first-class. Low one-way and round-trip rates to California are quoted, service is the best, and scenery unequaled.

Inquire of agents Colorado Midland railway, for rates, reservations in tourist sleepers, handsome illustrated pamphlets, or address W. F. Bailey, Gen. Pass. Agent, Denver, Colo.

They are Personally Conducted.

The California Tours, once a week, via Colorado Midland Railway, leaving Denver 8:30 a. m. each Wednesday, are under the personal supervision of an experienced excursion manager who accompanies each party through to Los Angeles, in the splendid Pullman tourist sleepers which are used for these tours. Special attention is given to ladies and children traveling alone; places of interest enroute pointed out; ... thing done for the comfort and enjoyment of passengers. The best of Colorado scenery is passed by daylight. The cost of double lower berth in tourist sleeper through from Denver to Los Angeles or San Francisco is but $4.50. Ask agents of Colorado Midland Railway for ticket rates and reservations, or address the general passenger agent at Denver.

LEGAL NOTICES

The Isabella Gold Mining Co.

Colorado Springs, Colo.
The regular annual meeting of the stockholders of The Isabella Gold Mining company, for the election of directors for the ensuing year, and for the transaction of such other business as may properly come before such meeting, will be held at the office of the company in Colorado Springs, Colorado, on Tuesday, January 15, 1901, at 12 o'clock noon.
The stock transfer books will be closed at 2:30 o'clock p. m. on January 5, 1901, and reopen at 10 o'clock a. m. on January 16, 1901.
The usual yearly reports will be submitted to said stockholders' meeting, and after approval by said meeting, a printed copy of same will be mailed to each said holder of record at the time transfer books were closed.
J. K. Sanger,
Secretary.

Notice of Deferred Annual Meeting.

To the Stockholders of The Union Bell Gold Mining company:
Notice is hereby given that, pursuant to instruction of the board of directors, the deferred annual meeting of the stockholders of said company will be held at the office of the company, Room 67 Bank building, Colorado Springs, Colorado, on Thursday the 24th day of January, 1901, at 10 o'clock a. m. for the election of directors and the transaction of such other business as may properly come before the meeting.
Notice is further given that at the said meeting the question of devising ways and means for the liquidation of debts of the said company, or securing payment of same, by mortgage, trust deed or otherwise, will be submitted to the said stockholders for action thereof.
(Signed) Frank G. Peck
William A. Otis, President.
Secretary.

Notice of Deferred Annual Stockholders' Meeting.

Notice is hereby given that the deferred annual meeting of the stockholders of The Gold Band Mining company will be held at the office of the company, No. 202 Boston building, Denver, Colorado, at 3:00 o'clock p. m., on Saturday, January 12, A. D., 1901, for the purpose of electing a board of directors, and transacting any and all business that may properly come before the meeting.
The books for the transfer of stock will be closed at 12:00 o'clock noon, Tuesday, January 1, A. D. 1901, and reopen one day after the final adjournment of the meeting.
F. L. Sigel,
Attest: F. J. Campbell, President.
Secretary.

DAILY WEATHER RECORD.

The following is furnished by the Colorado College weather bureau. Observations recorded to local time:

WEATHER FORECAST

Washington ... Colorado ... Saturday; variable winds.

The Colorado Springs Transfer Co. moves, packs and stores household goods.

New cut glass in Ashby's window.

Covered Buttons, with or without rims made at Wert's.

WANTED ... Address Box 947, City.

FUNERAL.—The funeral of ... Preston will take place this afternoon at Evergreen cemetery, leaving the residence at 4:30 p. m.

... LODGE ... Stated communication—No. 13, A. F. and A. M. this evening at 7:30 o'clock. Visiting brothers cordially invited to attend.

... continued to Jan ... McClellan.

SEWING SCHOOL.—The sewing school will re-open at St. Stephen's church ... on Saturday morning at 10.

... The ... Hillside council will meet with Mrs. Brunet, at her home, East Cimarron street, Friday afternoon. "The Second and Third Years of Childhood" will be ... All members are requested to be present.

A MEETING.—There will be a meeting of the Riding and Driving club at the offices of the Elkton Mining company at ... p. m. this evening for the purpose of ratifying the action of committee on ... and for other purposes.

OLD RESIDENT DEAD. Mrs. Anna ... wife of W. S. Bates ... yesterday at Calhan, Colo. Death was due to pneumonia. Mrs. Bates was 63 years of age. Mr. and Mrs. Bates are old residents of the county. The remains ... to this city ... this morning from Fairley Bros.' undertaking rooms.

ANNUAL FESTIVAL.—The annual festival of Grace church Sunday school, postponed from Christmas week, will be held this evening at 7 o'clock. There will be a tree, carols sung by the Sunday school and by the choir, and, in addition, special features representing the visit of the shepherds, and of the wise men, to the manger at Bethlehem. It will thus be an appropriate Epiphany festival.

WILL REORGANIZE.—Facts Publishing company has been re-incorporated with a paid-up capital of $20,000. The officers of the new company are ... president; ... general manager; and W. H. Frick, secretary and treasurer. New capital is to be put in ... the paper.

NEW FIRM.—Mr. Bert Wise, who has been in the city since last August, has decided to locate here ... offices in rooms 14 and 15 Barnes block. Mr. Wise brought his family here some time ago because of sickness and while here has ... and built some houses on North Weber ...

CROWD AMUSED.—Murray and Mack presented a farce comedy at the Opera house ... The show was entitled ... and was ... quick action and sparkled with fun from beginning to end. The house was laughing most of the time at the funny sallies of those well-known comedians, Murray and Mack. The musical specialties were very good and the work of the chorus was better than usual. The work of Kittie Beck, the soubrette, was fine, as was that of most of the company. While the name of the play does not sound exceptionally good, it expresses the nature of the play exactly. It is a funny ... farce and just the piece for such fun-makers as Murray and Mack.

When ... or any other lung trouble prompt relief is necessary, as it is dangerous to delay. We would suggest that One Minute Cough Cure ... It cures quickly and its early use prevents consumption. Hefley Vernacularius Drug Co. E. E. Smith, 117 South Tejon street.

Have your clothes cared for by the month. Hunter, 111 N. Tejon. 'Phone 449B.

News of Our Undermuslin Sale

It has been repeatedly remarked by customers that this is the greatest sale in the city. It is music to our ears to hear these complimentary remarks, as it took many days of hard labor to prepare for this event. Our buyer rummaged the Eastern market from beginning to end, and picked only the choicest effects.
